

# Liverpool Boys and Girls High Schools

Planning update

October 2022

## Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Upcoming milestones for the Liverpool Boys and Girls High Schools project

November  
2022

Master planning  
complete

Early  
2023

Final business  
case complete

Mid  
2023

Final business  
case lodged

Late  
2023

Lodge planning  
application

## Upgrading Liverpool Boys and Girls High Schools

The NSW Government is planning an upgrade to Liverpool Boys and Girls High Schools, which will provide additional permanent teaching spaces and core facilities to support the growing population in Western Sydney.

### What have we done so far?

The project is currently in the master planning phase; since the announcement of the project in the 2018/19 NSW Budget, we have been working on the following:

- Further analysing demographic trends and the school community needs.
- Conducting site investigations to assess the condition of existing buildings, site surroundings and onsite risks.
- We have appointed a design team to work in consultation with the PCG. Design work so far includes multiple master plan options and discussion of the advantages and disadvantages of each.
- Transport analysis, contamination assessment and project staging as part of this project.

### What's next?

The preferred design will be included in the final business case, which will be complete by early 2023. We will submit the final business case to NSW Treasury for approval in mid-2023 and lodge the planning application in late 2023.

### Stay up to date

We will share more information with the local community as the project progresses. To stay up to date on the project, please visit the project webpage <https://www.schoolinfrastructure.nsw.gov.au/projects//Liverpool-Boys-Girls-HS-Liverpool-Girls-HS.html>. Alternatively, you can contact us directly on the email address and phone number at the bottom of this page.

### Want to know more about how we build and upgrade schools?

We design and deliver schools to suit the individual needs of the local school community. We harness opportunities and solve challenges. As a result, no two schools are exactly the same.

What remains consistent is school infrastructure that empowers teachers to prepare students with the skills and capabilities they need to thrive in a rapidly changing and interconnected world.

Take a look at some of the upgrades we have delivered and see how these varied spaces support teaching and learning.
