## New Public School in Liverpool

Project update | August 2022

### Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

### Update to project timeline

The New Public School in Liverpool (NLPS) project received State Significant Development (SSD) approval from the Department of Planning and Environment (DPE) in May 2022. In order to meet the SSD conditions of consent, School Infrastructure NSW (SINSW) is working with the local health district to allow construction to begin. We will continue to update the community on our progress.

In the meantime, students in Liverpool can continue to enrol at their local school as per the current intake areas for Liverpool Public School, Warwick Farm Public School, Liverpool West Public School, and Marsden Road Public School. These schools are able to accommodate the expected student numbers until the new public school opens.
