Warami to Liverpool West Public School on the land of Cabrogal people of the Dharug Nation.

I am humbly honoured to stand as Principal within this vibrant diverse community, where every student, family, and staff member is an integral part of our collective story. Together, we've laid the foundation for a new era of education: a designed space with character, a stunning landscape not just for learning, but for cultivating connections, fostering collaboration, authentic opportunities and embracing the outdoors as an extension of our classrooms.

This marks the inception of our new school, where we combine new ideas with the best of the past. Our school reflects our dedication to excellence in education through our learning spaces tailored to accommodate diverse learning styles and collaboration.

Liverpool West Public School is more than just an educational institution; it's a community hub, home where every individual finds belonging and support. Our vision is to foster a culture of wellbeing, develop leadership qualities, and nurture a strong sense of social responsibility in every student who walks through our doors.

We value the partnership between school, parents, and the wider community. Together, we weave a tapestry of support, ensuring the success and well-being of every student.

As we embark on this journey together, I invite you to be part of our story, to contribute your uniqueness to the vibrant mosaic of Liverpool West Public School.

With great enthusiasm and gratitude,

Yanu,

Lucy Martin

Our record investment

As part of the NSW Government's plan to rebuild essential services, the 2023-24 Budget is delivering a record \$8.8 billion for new and upgraded schools. This targeted investment in growing communities will ensure working families get access to a world class public education.

In addition to this major project, we are delivering Gulyangarri Public School, as well as major upgrades at Liverpool Boys' and Girls' High Schools, Cecil Hills and Condell Park High Schools.

Connection to Country

Modern classrooms

The new facilities have flexible classrooms with furniture that is easy to move and rooms that can be joined together, or opened out into a large, shared space, for example.

The classrooms support innovation and technology use. They are designed to work with different student group sizes and activities, such as home class groups to smaller groups and independent study. This design gives better opportunities for working together and learning adapted for individual students.
