

Mainsbridge School Project update

April 2019

Investing in our schools

The NSW Government is investing \$6 billion over the next four years to deliver more than 170 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over four years. This is the largest investment in public education infrastructure in the history of NSW.

Mainsbridge School

A relocation is underway for Mainsbridge School for Specific Purposes (SSP) to part of the existing Warwick Farm Public School site.

The project will deliver new, purpose-built facilities that cater to the needs of the current students across primary and high school. The new facility will provide flexible learning spaces including quiet zones designed with consideration for children with specific needs, an administration and staff building, a multipurpose hall and performance stage, external play spaces, sports field, a two-storey library with multimedia areas and an indoor hydrotherapy pool.

Warwick Farm Public School upgrade works

Alongside the upgrade for Mainsbridge SSP, minor upgrade works will occur at Warwick Farm Public School, including a new toilet block, car park and landscaping. Warwick Farm Public School will also have shared use of the new sports field and multipurpose hall delivered as part of the Mainsbridge School project.

Progress summary

Planning approval has been received from the Department of Planning and Environment. The construction contract has been awarded to Hutchinsons Builders.

Site establishment

Site establishment works have commenced to prepare the site for construction. This involves installing construction fencing and shade cloth, delivering equipment and materials, preparing temporary play areas, and clearing the site. Works will occur between 7am and 6pm, Monday to Friday and 8am to 1pm, Saturday. No work will take place on Sundays or public holidays.

Keeping you updated

We will keep you updated and provide more information about the construction timetable in the coming months.
