APPENDIX A: COMPLIANCE TABLE	19
APPENDIX B: LIMITATIONS	109

1. Introduction

The Mainsbridge School for Specific Purposes (MSSP) is situated on the northern portion of the existing Warwick Farm Public School on Lot 2 DP 715287 at 95 Lawrence Hargrave Road, Warwick Farm. The site is located 26km west-southwest of the Sydney Central Business District and spans an area of approximately 31 hectares. The site location is presented in Figure 1.

Figure 1: Mainsbridge School for Specific Purposes (in yellow). Source: modified from *Environmental Impact Statement Mainsbridge School for Special Purposes, Warwick Farm, Urbis 2018 and GoogleEarth 2019*

The MSSP (the Project), is to facilitate the relocation of the existing Mainsbridge School for Specific Purposes from 118 Flowerdale Road, Liverpool to under-utilised land at Warwick Farm Public School. The new MSSP will accommodate approximately 120 students and 60 full-time staff.

The Project comprises:

- construction of one and two-storey buildings consisting of new learning spaces, administration, library and shared hall, canteen, amenities and storage facilities
- landscaping, including open space improvements, tree removal, covered outdoor learning areas, new sports field, fencing and pathways; and
- vehicular and pedestrian access along Williamson Crescent.

The Project was granted approval under Section 4.38 of the *Environmental Planning and Assessment Act 1979* on 27 February 2019 (State Significant Development 8792) subject to a number of Conditions of Consent (CoC). Construction commenced on 13 July 2019.

SSD 8792 has been modified on one occasion, on 19 July 2019, to update the requirements around biodiversity credits as set out in CoC B31.

2. Purpose and scope

SSD 8792 Schedule 2 CoC B40 – B43 require a Compliance Monitoring and Reporting Program, and Compliance Reports, prepared in accordance with the Department of Planning and Environment (the Department) document entitled *Compliance Reporting Post Approval Requirements 2018* (CRPAR).

In relation to this Compliance Report the following conditions apply:

CoC B41, which states:

Compliance Reports of the project must be carried out in accordance with the Compliance Reporting Post Approval Requirements (Department of Planning and Environment 2018).

CoC B42, which states:

The Applicant must make each Compliance Report publicly available 60 days after submitting it to the Department and notify the Department and the Certifying Authority in writing at least seven days before this is done.

The schedule of reporting contained in Compliance Monitoring and Reporting is presented in Table 1 below. This Compliance Report has been prepared in accordance with CoC B41 and the Department's CRPAR. It represents the first Compliance Report for the construction period.

Table 1: Schedule of Compliance Monitoring and Reporting

Report	Timing ¹	Anticipated Lodgement Date
Pre-Construction Compliance Report (complete)	Prior to commencement of construction	No later than 13 July 2019
Construction Compliance Report #1 (This Report)	26 weeks intervals from date of commencement of Construction	No later than 11 January 2020
Construction Compliance Report #2	26 weeks intervals from date of commencement of Construction	No later than 13 July 2020
Pre-Operations Compliance Report	Prior to the commencement of operation ²	No later than 20 July 2020
Operations Compliance Reports	At intervals, no greater than 52 weeks from the date of commencement of operation for the duration of operation	No later than 20 July 2021 and every 52 weeks onwards ³

Note ¹: The anticipated date of Compliance Reports may vary according to any changes in date of commencement of Construction and date of commencement of Operation. Notification for commencement of construction at the time of writing the Compliance Monitoring and Reporting Program was 22 June 2019. At the time of writing the Pre-Construction Compliance Report, the nominated date for commencement of construction was 13 July 2019.

Note ²: Works are assumed to be completed in 2020 (1 year duration), with the new MSSP operating from day 1 term 3 of 2020. There may be opportunity to submit the Pre-Operations Compliance Report at a time that fulfils Construction Compliance Report 2 and the Pre-Operations reporting requirement.

Note ³: CoC B43 provides that, notwithstanding the requirements of the Compliance Reporting Post Approval Requirements (2018), the Planning Secretary may approve a request for ongoing annual operational audits to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an operational compliance report has demonstrated operational compliance.

3. Key project personnel

The key roles and personnel responsible for Environmental Management throughout the duration of the Project are presented in Table 2.

Table 2: Key environmental roles and personnel

Organisation	Position	Representative	Contact Details
Schools Infrastructure NSW	Project Director	Neil Hogan	0457 203 625
GHD	Project Manager	Melissa Stojanovic	02 9239 7638
Hutchinson Builders	Project Manager	John Koumoukelis	0416 616 464

All employees, contractors (and their sub-contractors) are made aware of, and are instructed to comply with, the conditions of consent relevant to activities they carry out in respect of the development in accordance with CoC A21.

4. Project activity summary

SINSW have recognised that remediation and hazardous materials removal works have the potential to raise concern for parents and children attending the Warwick Farm School and Child Care Centre. With this in mind, these activities were scheduled on days and at times where the potential for disruption with these stakeholders was minimised. The result of this scheduling is that only very minor works have been conducted during the reporting period. These are:

- site establishment
- installation of environmental controls
- vegetation management
- remediation and hazardous materials removal; and
- construction of Water Closet 4.

It is anticipated that substantial construction works will occur during the next reporting period, in accordance with the requirements of the CoC.

5. Compliance reporting

Details and Status of Compliance with each of the CoC are recorded in the Compliance Table presented in Appendix A.

5.1 Reporting timing and Reporting period

This Compliance Report has been prepared to address the requirements of CoC B41 and reports on the status of compliance during the first construction phase of the Project.

The reporting period for this Compliance Report is from the commencement of construction (13 July 2019) to 13 January 2020.

5.2 Compliance status descriptors

The status of each compliance requirement applicable during the reporting period has been recorded using the relevant descriptors in Table 3 below. No other terms are to be or have been used to describe the compliance status.

Table 3: Compliance Status Descriptor

Status Descriptor	Description
Compliant	The proponent has collected sufficient verifiable evidence to demonstrate that all elements of the requirement have been complied with.
Non-compliant	The proponent has identified a non-compliance with one or more elements of the requirement.
Not triggered	A requirement has an activation or timing trigger that has not been met at the phase of the development when the compliance assessment is undertaken, therefore an assessment of compliance is not relevant.

6. Compliance Summary

6.1 Overview

The compliance status of the Project for the current reporting period is summarised below and in Table 4:

- 69 x CoC have been complied with.
- 10 x CoC have not been complied with (noting that seven of these relate to non-compliances identified in the first Independent Audit that SINSW have responded to).
- 92 x CoC have yet to be triggered.

Further details regarding status against each CoC is included in Section 6.2 and Appendix A: Compliance Table.

Table 4: Compliance Summary

Status	Schedule 2, Conditions of Consent No.
PART A – ADMINISTRATIVE CONDITIONS	
Compliant	A1, A5, A6, A8, A10, A15, A16, A17, A19, A20, A21
Non-compliant	A2 ¹
Not triggered	A3, A4, A7, A9, A11, A12, A13, A14, A18
PART B – PRIOR TO COMMENCEMENT OF CONSTRUCTION	
Compliant	B1, B2, B3, B4, B5, B8, B9, B11, B12, B13, B14, B15, B16, B18, B19, B20, B22, B23, B26, B28, B29, B30, B31, B32, B34, B35, B36, B37, B38, B40, B42
Non-compliant	B17 ¹ , B21 ¹ , B24 ¹ , B25 ¹ , B27 ¹ , B41
Not triggered	B6, B7, B10, B33, B39, B43, B44 ²
PART C – DURING CONSTRUCTION	
Compliant	C1, C2, C3, C5, C9, C10, C12, C13, C14, C15, C17, C18, C19, C22, C23, C24, C26, C31, C32, C33, C35, C36, C37, C38, C40, C41, C42
Non-Compliant	C39 ¹ , C45, C46
Not Triggered	C4, C6, C7, C8, C11, C16, C20, C21, C25, C27, C28, C29, C30, C34, C43, C44, C47
PART D – PRIOR TO OCCUPATION OR COMMENCEMENT OF USE	
Not triggered	D1 – D44
PART E – POST OCCUPATION	
Not triggered	E1 – E15

Notes.

1. Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. Each non-compliance has already been reported and responded to by SINSW.
2. The Independent Auditor reported CoC B44 as non-compliant, however this condition is required to be satisfied prior to the occupation of the building and is therefore not triggered.

6.2 Detail

Table 5: Detail of non-compliance

CoC ID	Compliance requirement	Detail of non-compliance, including date of occurrence and date it was identified.	Action/ recommendation to address non-compliance
A2	The development may only be carried out: (a) in compliance with the conditions of this consent; (b) in accordance with all written directions of the Planning Secretary; (c) generally in accordance with the EIS and Response to Submissions; (d) in accordance with the approved plans in the table.	Non-compliances have been identified against the conditions of consent, contrary to requirement (a) of this condition. This was also identified by the Independent Auditor.	SINSW to ensure proactive and regular review of compliance requirements and implement actions to prevent or remedy non-compliances. Specific actions in relation to each non-compliance are detailed below.
B17	Management plans required under this consent must be prepared in accordance with relevant guidelines, and include: (a) detailed baseline data; (b) details of: i. the relevant statutory requirements (including any relevant approval, licence or lease conditions); ii. any relevant limits or performance measures and criteria; and iii. the specific performance indicators that are proposed to be used to judge the performance of, or guide the implementation of, the development or any management measures; (c) a description of the measures to be implemented to comply with the relevant statutory requirements, limits, or performance measures and criteria; (d) a program to monitor and report on the: i. impacts and environmental performance of the development; ii. effectiveness of the management measures set out pursuant to paragraph (c) above; (e) a contingency plan to manage any unpredicted impacts and their consequences and to ensure that ongoing impacts reduce to levels below relevant impact assessment criteria as quickly as possible; (f) a program to investigate and implement ways to improve the environmental performance of the development over time; (g) a protocol for managing and reporting any: i. incident and any non-compliance (specifically including any exceedance of the impact assessment criteria and performance criteria);	Mainsbridge School CEMP and Sub-Plans June 2019 V4, J161921, Greencap Consulting) addresses requirements a) – h) of this condition, other than the following as identified by the Independent Auditor: (a) the CEMP and sub-plans lacked detailed baseline data which had been included in the EIS such as: • Background noise levels • Prevailing wind conditions and speeds • Asbestos and lead levels detected in contaminated materials. (b)ii The criteria or water quality limits are not specified in the Construction Soil and Water Management Sub-Plan.	Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. The non-compliance was reported and responded to by SINSW. The CEMP was updated (v6) to address the omissions: * Background Noise Levels are entered to Section 3.4 of Appendix K - Noise and Vibration Management Plan. * Prevailing wind conditions and speeds are entered to Appendix E - Soil and Water Management plan of the CEMP. Refer to Section 4.2.1 Prevailing Wind Conditions and Speeds. * Asbestos and Lead levels were included in second paragraph of Section 4.2 (Appendix E - Soil and Water Management plan of the CEMP)

CoC ID	Compliance requirement	Detail of non-compliance, including date of occurrence and date it was identified.	Action/ recommendation to address non-compliance
	<ul style="list-style-type: none"> ii. complaint; iii. failure to comply with statutory requirements; and (h) a protocol for periodic review of the plan 		<p>* Discharge Criteria have been included in section 5.4.1 in the CSWMSP based on (ANZECC & ARMCANZ, 2000).</p> <p>Status: Closed</p>
B21	<p>The Construction Noise and Vibration Management Sub-Plan must address, but not be limited to, the following:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced noise expert; (b) describe procedures for achieving the noise management levels in EPA's Interim Construction Noise Guideline (DECC, 2009); (c) describe the measures to be implemented to manage high noise generating works such as piling, in close proximity to sensitive receivers; (d) include strategies that have been developed with the community for managing high noise generating works; (e) describe the community consultation undertaken to develop the strategies in condition B21(d); and (f) include a complaints management system that would be implemented for the duration of the construction 	<p>Non-compliance as identified by the Independent Auditor: there is no evidence that the high noise generating work activities described in Section 4.2 of the Construction Noise and Vibration management Sub-Plan have been developed in consultation with the community as this is not specifically referenced.</p>	<p>Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. The non-compliance was reported and responded to by SINSW.</p> <p>Consultation with identified receivers has commenced, and this includes identification of potential high noise activities and the strategies to manage the impacts from the works. Consultation is anticipated to be completed by 14/02/20.</p> <p>Status: Open</p>
B24	<p>The Biodiversity Management Sub-Plan (BMSP) must address, but not be limited to, the following:</p> <ul style="list-style-type: none"> (a) provide information and maps that define the biodiversity values across the site; (b) outline priority investment area on-site where biodiversity will benefit from active management and restoration; (c) map potential areas for management of threatened and significant species; (d) measures to minimise the loss of key fauna habitat, including tree hollows; (e) measures to minimise the impacts on fauna on site, including conducting fauna preclearance surveys prior to vegetation clearing, building/structure demolition; 	<p>Non-compliance as identified by the Independent Auditor: The Biodiversity Management Sub-Plan does not include a figure showing the potential locations of threatened species as required by B24(c). The Auditor concluded that given the conclusion of the Alphitonia (2018) assessment described unlikely impacts, it is the Auditor's opinion that a map of the potential threatened and significant species is not required, however this should be clearly stated in the Biodiversity Management Sub-Plan with relevant justification provided.</p>	<p>Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. The non-compliance was reported and responded to by SINSW.</p> <p>The CEMP was updated (v6) to address the omission: * Section 3.1 of the BMSP now states: Refer to Attachment A, figure 1 for the Alphitonia (2018) biodiversity values map.</p>

CoC ID	Compliance requirement	Detail of non-compliance, including date of occurrence and date it was identified.	Action/ recommendation to address non-compliance
	<ul style="list-style-type: none"> (f) engagement of an appropriately qualified ecologist with experience in capturing native wildlife to be on site for all vegetation removal activities; (g) controlling weeds and feral pests; (h) an Unexpected Finds Procedure detailing procedures and management measures to be implemented in the event that flora and fauna is uncovered in any area not identified in the updated Biodiversity Assessment (BAR); (i) measures to ensure biodiversity values not intended to be impacted are protected, including barriers and mapping of protected/ 'no-go' areas; and (j) a program to monitor the effectiveness of the measures in the BMSP 		<p>The map is presented in Appendix A of that document.</p> <p>Status: Closed</p>
B25	<p>The Flood Emergency Response Sub-Plan (FERSP) must address, but not be limited to, the following:</p> <ul style="list-style-type: none"> (a) be prepared by a suitably qualified and experienced person(s); (b) address the provisions of the Floodplain Risk Management Guideline (OEH, 2007); (c) include details of: <ul style="list-style-type: none"> i. flood emergency responses for both construction and operation phases of the development; ii. predicted flood levels; iii. flood warning time and flood notification; iv. assembly points and evacuation routes; v. evacuation and refuge protocols; and vi. awareness training for employees and contractors, and students. 	<p>Non-compliance as identified by the Independent Auditor: The Bushfire and Flood Emergency Response Sub-Plan does not include reference to the Floodplain Risk Management Guideline (OEH 2007) as identified by B25(b).</p>	<p>Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. The non-compliance has already been reported and responded to by SINSW.</p> <p>The CEMP was updated (v6) to address the omission: * Section 3.3.2 and 3.3.3 of the Bushfire and Flood Emergency Response Sub-Plan now include references to the Floodplain Risk Management Guideline (OEH 2007).</p> <p>Status: Closed</p>
B27	<p>Prior to the commencement of construction, the Applicant must design a stormwater management system for the development and submit it to the satisfaction of the Certifying Authority. The system must:</p> <ul style="list-style-type: none"> (a) be designed by a suitably qualified and experienced person(s); (b) be generally in accordance with the conceptual design in the EIS; (c) be in accordance with applicable Australian Standards; 	<p>Non-compliance as identified by Independent Auditor: the Auditor presumes the author is suitably qualified and experienced as required by CoC B27(a). However, the Civil Engineer Drawings are not signed or dated by the Project Engineer in the space provided on the plan. No details on their qualifications and</p>	<p>Identified as a non-compliance by the Independent Auditor in the first Independent Audit Report prepared in accordance with CoC C41. The non-compliance has already been reported and responded to by SINSW.</p>

CoC ID	Compliance requirement	Detail of non-compliance, including date of occurrence and date it was identified.	Action/ recommendation to address non-compliance
	(d) ensure that the system capacity has been designed in accordance with Australian Rainfall and Runoff (Engineers Australia, 2016) and Managing Urban Stormwater: Council Handbook (EPA, 1997) guidelines; (e) divert existing clean surface water around operational areas of the site; (f) prevent cross-contamination of clean and sediment laden water.	experience of WSP personnel in relation to stormwater management have been provided.	WSP have since provided a statement (Civil Design Advice, Project 4785, 21/01/2020) verifying that the stormwater management system was designed in accordance with each requirement of CoC B27, including that it was designed by a suitably qualified and experienced person. Status: Closed
B41	Compliance Reports of the project must be carried out in accordance with the Compliance Reporting Post Approval Requirements (Department of Planning and Environment 2018).	Non-compliance: This Compliance Report was due to be submitted on 11/01/20 (26 weeks after notified date of commencement of construction). This Compliance Report was submitted after this date to allow for the collection and collation of evidence relied upon to demonstrate compliance.	The next Compliance Report will be prepared with sufficient time to submit by the date specified in the Compliance Monitoring and Reporting program (being 13/07/20). Status: Open
C39	Table 1 of the Independent Audit Post Approval Requirements (Department of Planning and Environment 2018) is amended so that the frequency of audits required in the construction phase is: (a) An initial construction Independent Audit must be undertaken within eight weeks of the notified commencement date of construction; and (b) A subsequent Independent Audit of construction must be undertaken no later than six months from the date of the initial construction Independent Audit.	Non-compliance identified by the Independent Auditor: The notified date for the commencement of physical works was 13/7/19. The site visit for the Independent Audit was undertaken on 21/8/19 (~5.5 weeks later). The final Audit Report was unable to be completed until 28/11/19 (beyond the timeframe specified by CoCC39(a)) as outstanding documentation was not provided until 18/11/19.	SINSW to schedule future Independent Audits so they are completed within the timeframes specified in the Independent Audit Program (being 13/07/20). Status: Open
C45	The Department must be notified in writing to compliance@planning.nsw.gov.au within seven days after the Applicant becomes aware of any non-compliance. The Certifying Authority must also notify the Department in writing to compliance@planning.nsw.gov.au within seven days after they identify any non-compliance.	There have been no non-compliances identified for the reporting period, other than those identified in and reported through the submission of the Independent Audit Report and this Compliance Report.	SINSW to establish system of reporting non-compliances as required by this condition. Status: Open

CoC ID	Compliance requirement	Detail of non-compliance, including date of occurrence and date it was identified.	Action/ recommendation to address non-compliance
	<p>The notification must identify the development and the application number for it, set out the condition of consent that the development is non-compliant with, the way in which it does not comply and the reasons for the non-compliance (if known) and what actions have been, or will be, undertaken to address the non-compliance.</p> <p>A non-compliance which has been notified as an incident does not need to also be notified as a non-compliance</p>	Non-compliance: The Independent Audit Report was finalised on 12/11/19 and notification of the non-compliances was not provided until 10/12/19 (beyond the 7 days specified by this condition).	
C46	<p>Within three months of:</p> <ul style="list-style-type: none"> (a) the submission of a compliance report under condition B40; (b) the submission of an incident report under condition C44; (c) the submission of an Independent Audit under condition C41; (d) the issue of a direction of the Planning Secretary under condition A2 which requires a review, <p>the strategies, plans and programs required under this consent must be reviewed, and the Department and the Certifying Authority must be notified in writing that a review is being carried out.</p>	There is no evidence of a review (or notification of that review) occurring within three months of submission of the Pre-Construction Compliance Report (submitted 12/07/19).	<p>A review of the strategies, plans and programs was undertaken as part of the preparation of the Compliance Report, and was reported to the Department and Certifying Authority on 17/01/20 and 22/01/20 respectively.</p> <p>SINSW will implement a system of periodic review going forward, in consideration of the triggers specified in this condition.</p> <p>Status: Open</p>

6.3 Previous report actions

As there were no non-compliances found in the Pre-Construction Compliance Report, there are no actions arising from previous reporting period.

7. Incidents

A register of all incidents, as defined by the definitions in SSD 8792, is to be maintained with the following information:

- the cause and nature of the incident, the date it occurred and the date it was identified;
- location of the incident;
- how the incident was identified;
- the agency, or agencies to whom the incident was reported;
- details of any corrective and preventative action required by agencies and any undertaken by the proponent; and
- the response to the incident, including details of timing for undertaking such actions (i.e. that corrective and preventative action is not required, has commenced or is completed).

The Project has not identified any notifiable incidents during this reporting period.

8. Complaints

A list or table of complaints received, as defined by the Conditions of Consent, is to be maintained with the following information:

- the number of complaints received; and
- a summary of the main areas of the complaint.

A statement must also be provided as to any emerging trends identified in complaints received and proposed action for addressing complaints or reducing the recurrence of complaints or that 'no further action is required'.

A complaints register is available on the Project website

https://www.schoolinfrastructure.nsw.gov.au/content/dam/infrastructure/projects/m/mainsbridge-school/documents/Complaints_register_MainsbridgeSSP.pdf

There have been no complaints received during this reporting period.

9. Compliance Report Declaration

Compliance Report Declaration Form			
Project Name:	Mainsbridge School for Specific Purposes	Project Application Number:	8792
Description of Project:	Development of the new Mainsbridge School for Specific Purposes to facilitate its relocation to Warwick Farm.		
Project Address	Lot 2 DP 715287 at 95 Lawrence Hargrave Road, Warwick Farm	Proponent:	Department of Education – Schools Infrastructure
Title of Compliance Report:	Construction Compliance Report 1	Date:	22/01/20
<p>I declare that I have reviewed relevant evidence and prepared the contents of the attached Compliance Report and to the best of my knowledge:</p> <ul style="list-style-type: none"> • the Compliance Report has been prepared in accordance with all relevant conditions of consent; • the Compliance Report has been prepared in accordance with the Compliance Reporting Post Approval Requirements; • the findings of the Compliance Report are reported truthfully, accurately and completely; • due diligence and professional judgement have been exercised in preparing the Compliance Report; and • the Compliance Report is an accurate summary of the compliance status of the development. 			
<p>Notes:</p> <ul style="list-style-type: none"> • Under section 10.6 of the Environmental Planning and Assessment Act 1979 a person must not include false or misleading information (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and • The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information – maximum penalty 2 years' imprisonment or 200 penalty units, or both).

		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
			Compliance Reports	16/2297.06/01 granted 12/07/19) - signage is installed as per this requirement (refer CoC C2) - residential building work (not relevant) - entertainment venues (not relevant) - signage for max number of persons (not relevant for construction) - shoring and adjoining properties (no shoring required, no properties are adjoining to the works).	
Planning Secretary as Moderator					
A7	In the event of a dispute between the Applicant and a public authority, in relation to an applicable requirement in this approval or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's resolution of the matter must be binding on the parties.	At all times	Compliance Reports	There have been no disputes.	Not triggered
Long Service Levy					
A8	For work costing \$25,000 or more, a Long Service Levy must be paid. For further information please contact the Long Service Payments Corporation Helpline on 131 441.	Prior to Construction	Payment of the Levy	30/05/2019 NSW Long Service Corporation Levy Receipt.	Compliant
Legal Notices					
A9	Any advice or notice to the consent authority must be served on the Planning Secretary	At all times	Compliance Reports	There have been no legal notices served.	Not triggered
Evidence of Consultation					

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
A10	Where conditions of this consent require consultation with an identified party, the Applicant must: (a) consult with the relevant party prior to submitting the subject document for information; and	At all times	System for recording consultation details and tracking issues raised/ resolved/ not resolved/ efforts made to resolve	Consultation was undertaken with the relevant parties required under the conditions. Refer response to CoC B4, CoC B20, CoC B21, CoC B23.	Compliant
(b) provide details of the consultation undertaken including: (i) the outcome of that consultation, matters resolved and unresolved; and (ii) details of any disagreement remaining between the party consulted and the Applicant and how the Applicant has addressed the matters not resolved.	Evidence of consultation was included with the documents to which it relates. Refer response to CoC B4, CoC B20, CoC B21, CoC B23.				
Staging, Combining and Updating Strategies, Plans or Programs					
A11	With the approval of the Planning Secretary, the Applicant may: (a) prepare and submit any strategy, plan or program required by this consent on a staged basis (if a clear description is provided as to the specific stage and scope of the development to which the strategy, plan or program applies, the relationship of the stage to any future stages and the trigger for updating the strategy, plan or program);	At all times	Crown Certificate submissions Compliance Reports	The Project is not being staged.	Not triggered
(b) combine any strategy, plan or program required by this consent (if a clear relationship is demonstrated between the strategies, plans or programs that are proposed to be combined); and	The Project is not being staged.				
(c) update any strategy, plan or program required by this consent (to ensure the strategies, plans and programs required under	The Project is not being staged.				

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	this consent are updated on a regular basis and incorporate additional measures or amendments to improve the environmental performance of the development)				
A12	If the Planning Secretary agrees, a strategy, plan or program may be staged or updated without consultation being undertaken with all parties required to be consulted in the relevant condition in this consent.	At all times	Filing System for communications with the Planning Secretary, Department	The Project is not being staged.	Not triggered
A13	If approved by the Planning Secretary, updated strategies, plans or programs supersede the previous versions of them and must be implemented in accordance with the condition that requires the strategy, plan or program.	At all times	Filing Approvals issued by the Planning Secretary	The Project is not being staged.	Not triggered
Demolition					
A14	Demolition work must comply with Australian Standard AS 2601-2001 The demolition of structures (Standards Australia, 2001). The work plans required by AS 2601-2001 must be accompanied by a written statement from a suitably qualified person that the proposals contained in the work plan comply with the safety requirements of the Standard. The work plans, and the statement of compliance must be submitted to the Certifying Authority before the commencement of works.	Prior to commencement of works	Filing System for submissions to Certifying authority Pre-Construction Compliance Report	No demolition. N/A as per email 30/5/19 M Lolic, Steve Watson & Partners.	Not triggered.
Structural Adequacy					
A15	All new buildings and structures, and any alterations or additions to existing buildings and structures, that are part of the development, must be constructed in accordance with the relevant requirements of the BCA.	At all times	Application for construction and Occupation Certificates	Design plans were prepared to demonstrate compliance with the BCA and submitted to the Certifying Authority as part of the application for the Crown Certificate. Crown Certificate	Compliant

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	Note: Part 8 of the EP&A Regulation sets out the requirements for the certification of the development.		Engineering and Design Plan Reviews Compliance Reports	16/2297.06/01 granted 12/07/19.	
External Walls and Cladding					
A16	The external walls of all buildings including additions to existing buildings must comply with the relevant requirements of the BCA.	At all times	Engineering and Design Plan Reviews Compliance Reports	Walls and alterations compliance with BCA assessed by the Certifying Authority as part of Crown Certificate application. Crown Certificate 16/2297.06/01 granted 12/07/19	Compliant
Applicability of Guidelines					
A17	References in the conditions of this consent to any guideline, protocol, Australian Standard or policy are to such guidelines, protocols, Standards or policies in the form they are in as at the date of this consent.	At all times	-	The CEMP and sub-plans refer to the relevant guidelines and policies.	Compliant
A18	However, consistent with the conditions of this consent and without altering any limits or criteria in this consent, the Planning Secretary may, when issuing directions under this consent in respect of ongoing monitoring and management obligations, require compliance with an updated or revised version of such a guideline, protocol, Standard or policy, or a replacement of them.	At all times	-	No directives have been issued from the Planning Secretary	Not triggered
Monitoring and Environmental Audits					
A19	Any condition of this consent that requires the carrying out of monitoring or an environmental audit, whether directly or by way of a plan, strategy or program, is taken to be a condition	At all times	Monitoring or audit methodology statements / reports	The relevant section of the EPAA relates to (among other things) the need to be accurate, true (not misleading), properly	Compliant

				site prior to approved work hours	
C6	Activities may be undertaken outside of the hours in condition C5 if required:	During Construction	Works planning / programming Out of Hours Noise assessments	No out of hours works to date.	Not triggered
	(a) by the Police or a public authority for the delivery of vehicles, plant or materials; or			As above	
	(b) in an emergency to avoid the loss of life, damage to property or to prevent environmental harm; or			As above	
	(c) where the works are inaudible at the nearest sensitive receivers; or			As above	
	(d) where a variation is approved in advance in writing by the Planning Secretary or her nominee if appropriate justification is provided for the works.				
C7	Notification of such activities must be given to affected residents before undertaking the activities or as soon as is practical afterwards.	During Construction	Works planning / programming Out of Hours Noise assessments	No out of hours works to date.	Not triggered
C8	Rock breaking, rock hammering, sheet piling, pile driving, and similar activities may only be carried out between the following hours: (a) 9:00am to 12:00pm, Monday to Friday; (b) 2:00pm to 5:00pm Monday to Friday; and (c) 9:00am to 12:00pm, Saturday.	During Construction	Observation Inductions and training Inspections	No high impact works to date.	Not triggered
Implementation of Management Plans					
C9	The Applicant must carry out the construction of the development in accordance with the most recent version of the approved CEMP (including Sub-Plans)	During Construction	Observation Inductions and training	Project induction is based on the CEMP, it is communicated to the workforce.	Compliant

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
			Inspections Audits Monitoring	Weekly enviro checklist 12/12/19 and Hammertech Big 10 inspections. Greencap clearance reports J161921. Daily pre-starts are being carried out and address environmental risks for the works being undertaken. Soil and water controls from the Erosion and Sediment Control Plan are being implemented relevant to the works. No complaints or incidents reported to date	
Construction Traffic					
C10	All construction vehicles (excluding worker vehicles) are to be contained wholly within the site, except if located in an approved on-street work zone, and vehicles must enter the site before stopping.	During Construction	Observation Inductions and training Inspections Audits	Photo 20-01-14 14.2020 All heavy vehicles and plant is located within the site boundary. Hammertech Big 10 site inspection checklists include a weekly inspection of traffic and parking arrangements.	Compliant
Road Occupancy Licence					
C11	A Road Occupancy Licence must be obtained from the relevant road authority for any works that impact on traffic flows during construction activities.	During Construction	Works planning / programming	No ROLs have been required to date of preparation of this report.	Not triggered

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
SafeWork Requirements					
C12	To protect the safety of work personnel and the public, the work site must be adequately secured to prevent access by unauthorised personnel, and work must be conducted at all times in accordance with relevant SafeWork requirements	During Construction	Works planning / programming Observation Surveillance	SafeWork notification of for non-friable asbestos 940R-000256089-01. It expires in 2023. Asbestos Removal Control Plan prepared and implemented by the removalists, consistent with Safework requirements. Fencing / hoarding and signage is installed on site to prevent and manage access. Staff are required to be inducted, receive pre-start briefings and wear PPE.	Compliant
Hoarding Requirements					
C13	The following hoarding requirements must be complied with: (a) no third-party advertising is permitted to be displayed on the subject hoarding/ fencing; (b) the construction site manager must be responsible for the removal of all graffiti from any construction hoardings or the like within the construction area within 48 hours of its application; and (c) the Applicant must submit a hoarding application to Council for the installation of any	During Construction	Works planning / programming Observation	Photo series 2020-01-14 13.57-03-14.47.28. No advertising or graffiti evident. Photo series 2020-01-14 13.57-03-14.47.28. No advertising or graffiti evident. No hoarding installed on Council land.	Compliant

		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	hoardings over Council footways or road reserve.				
No Obstruction of Public Way					
C14	The public way (outside of any approved construction works zone) must not be obstructed by any materials, vehicles, refuse, skips or the like, under and circumstances. Non-compliance with this requirement will result in the issue of a notice by the relevant Authority to stop all works on site.	During Construction	Works planning / programming CTPMSP TCP TMP Observation	Complaints register on project website. No complaints regarding obstruction of public way received to date. Photo series 2020-01-14 13-57-03-14.14.16 demonstrates no obstruction. A Traffic Control Plan (TC19129) prepared by ETM traffic is in place for the footpath works. Access and egress is as per the approved CTPMSP.	Compliant
Construction Noise Limits					
C15	The development must be constructed to achieve the construction noise management levels detailed in the Interim Construction Noise Guideline (DECC, 2009). All feasible and reasonable noise mitigation measures must be implemented and any activities that could exceed the construction noise management levels must be identified and managed in accordance with the management and mitigation measures identified in the approved Construction Noise and Vibration Management Plan	During Construction	Processes set out in the CNVMP	Hammertech Big 10 site inspection checklists include a weekly environmental inspection. This includes consideration of noise. Only remediation and early works have occurred. these have a low noise profile. Boundary hoarding is erected around the site to provide noise attenuation.	Compliant

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
				Complaints register on website. No complaints received to date regarding noise.	
C16	The Applicant must ensure construction vehicles (including concrete agitator trucks) do not arrive at the site or surrounding residential precincts outside of the construction hours of work outlined under condition C5.	During Construction	Observation Inductions and training Inspections	Project induction material, site notice and tender / subcontractor interview template contains permissible site hours. No OOHW required to date. Complaints register on website. No complaints received to date regarding vehicles arriving on site outside approved work hours.	Not triggered
C17	The Applicant must implement, where practicable and without compromising the safety of construction staff or members of the public, the use audible movement alarms of a type that would minimise noise impacts on surrounding noise sensitive receivers.	During Construction	Plant onboarding process Observation	Large mobile plant on site is fitted with non-tonal reverse alarms. Small, short term hire plant is fitted with sirens provided by the supplier.	Compliant
C18	Any noise generated during construction of the development must not be offensive noise within the meaning of the Protection of the Environment Operations Act 1997 or exceed approved noise limits for the site.	During Construction	Processes set out in the CNVMP	Refer response to CoC C15-17 above. No high noise works occurred during the reporting period. Complaints register on website. No complaints received to date regarding noise.	Compliant
Vibration Criteria					

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
C19	Vibration caused by construction at any residence or structure outside the site must be limited to: (a) for structural damage, the latest version of DIN 4150-3 (1992-02) Structural vibration - Effects of vibration on structures (German Institute for Standardisation, 1999); and (b) for human exposure, the acceptable vibration values set out in the Environmental Noise Management Assessing Vibration: a technical guideline (DEC, 2006) (as may be updated or replaced from time to time).	During Construction	Processes set out in the CNVMP	Hammertech Big 10 and CEMP site inspection checklists include a weekly environmental inspection. This includes consideration of noise. Only remediation and early works have occurred. These have a low vibration profile. No vibratory rollers, pilers or hammering works have occurred to date. Complaints register on website.	Compliant
C20	Vibratory compactors must not be used closer than 30 metres from residential buildings unless vibration monitoring confirms compliance with the vibration criteria specified in condition C19.	During Construction	Works planning / programming Observation	No vibratory compactors were used during the reporting period.	Not triggered
C21	The limits in conditions C19 and C20 apply unless otherwise outlined in a Construction Noise and Vibration Management Plan, approved as part of the CEMP required by condition B21 of this consent.	During Construction	Processes set out in the CNVMP	Noted. The CNVMP does not include a process for deviations from CoC C19 and C20.	Not triggered
Tree Protection					
C22	For the duration of the construction works: (a) street trees must not be trimmed or removed unless it forms a part of this development consent or prior written approval from Council is obtained or is required in an emergency to avoid the loss of life or damage to property;	During Construction	Works planning / programming Environmental constraint mapping Observation	Tree Protection Zones in place on site. Comprising fencing and signage as per the Arborist report. No street trees encroach on the Project site.	Compliant

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
	(b) all street trees must be protected at all times during construction. Any tree on the footpath, which is damaged or removed during construction due to an emergency, must be replaced, to the satisfaction of Council;			No street trees encroach on the Project site.	
	(c) all trees on the site that are not approved for removal must be suitably protected during construction as per recommendations of the Aboricultural Impact Assessment Report prepared by Paul Shearer Consulting dated 30 August 2018;			Tree Protection Zones in place on site. Comprising fencing and signage as per the Arborist report. The Aboricultural Impact Assessment Report is available to site personnel for reference.	
	(d) native trees to be retained on the site, including Tree 30 must be clearly identified on the ground by protective fencing prior to any works commencing on the site and the fencing maintained for the duration of construction works; and			Complete Arboricare inspection letter 19/12/19 states that an inspection was carried out and that all trees to be retained (including tree 30) was correctly protected prior to clearing works being carried out.	
	(e) if access to the area within any protective barrier is required during the works, it must be carried out under the supervision of a qualified arborist. Alternative tree protection measures must be installed, as required. The removal of tree protection measures, following completion of the works, must be carried out under the supervision of a qualified arborist and must avoid both direct mechanical injury to the structure of the tree and soil compaction within the canopy or the limit of the former protective fencing, whichever is the greater.			Access to areas with the tree protection Zones has not been required during the reporting period.	
Dust Minimisation					

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
C23	The Applicant must take all reasonable steps to minimise dust generated during all works authorised by this consent	During Construction	Weather monitoring Works planning / programming Observation Inspection	Environmental inspection record 12/12/19 and Hammertech Big 10 inspections include assessment of dust. Boundary fencing is fitted with screening to prevent / minimise fugitive dust. A watercart is available if needed. Sprinklers are available on site as needed. Photos of use of hoses during remediation available in Site supervisor daily diary. No complaints of dust have been received during the reporting period.	Compliant
C24	During construction, the Applicant must ensure that: (a) exposed surfaces and stockpiles are suppressed by regular watering;	During Construction	Works planning / programming Observation Inspection	Environmental inspection record 12/12/19 Hammertech Big 10 inspections include assessment of dust. A watercart is available if needed. Sprinklers are available on site as needed. Photos of use of hoses during remediation available in Site supervisor daily diary.	Compliant

			Inspection	therefore, pumping is not required.	
Unexpected Finds Protocol – Aboriginal Heritage					
C29	In the event that surface disturbance identifies a new Aboriginal object, all works must halt in the immediate area to prevent any further impacts to the object(s). A suitably qualified archaeologist and the registered Aboriginal representatives must be contacted to determine the significance of the objects. The site is to be registered in the Aboriginal Heritage Information Management System (AHIMS) which is managed by OEH and the management outcome for the site included in the information provided to AHIMS. The Applicant must consult with the Aboriginal community representatives, the archaeologists and OEH to develop and implement management strategies for all objects/sites. Works shall only recommence with the written approval of OEH.	During Construction	Observation Inductions and training Inspections	No unexpected finds to date.	Not triggered
Unexpected Finds Protocol – Historic Heritage					
C30	If any unexpected archaeological relics are uncovered during the work, then all works must cease immediately in that area and the OEH Heritage Division contacted. Depending on the possible significance of the relics, an archaeological assessment and management strategy may be required before further works can continue in that area. Works may only recommence with the written approval of Heritage Division of the OEH.	During Construction	Observation Inductions and training Inspections	No unexpected finds to date.	Not triggered
Waste Storage and Processing

		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	the strategies, plans and programs required under this consent must be reviewed, and the Department and the Certifying Authority must be notified in writing that a review is being carried out.			<p>Non-compliance: There is no evidence of a review (or notification of that review) occurring within three months of submission of the Pre-Construction Compliance Report (that is, prior to 12/10/19).</p> <p>A review of the strategies, plans and programs was undertaken as part of the preparation of the Compliance Report, and was reported to the Department and Certifying Authority on 21/01/20 and 17/01/20 respectively.</p> <p>SINSW will implement a system of periodic review going forward, in consideration of the triggers specified in this condition.</p>	
C47	If necessary to either improve the environmental performance of the development, cater for a modification or comply with a direction, the strategies, plans and programs required under this consent must be revised, to the satisfaction of the Planning Secretary and Certifying Authority. Where revisions are required, the revised document must be submitted to the Planning Secretary and Certifying Authority for information within six weeks of the review.	At all times	As required by proponent, or as directed by Planning Secretary or Certifying Authority	There have been no Planning Secretary or Certifying Authority directions	Not triggered

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
	Note: This is to ensure strategies, plans and programs are updated on a regular basis and to incorporate any recommended measures to improve the environmental performance of the development.				
PART D PRIOR TO OCCUPATION OR COMMENCEMENT OF USE					
Notification of Occupation					
D1	The date of commencement of the occupation of the development must be notified to the Department in writing, at least one month before occupation. If the operation of the development is to be staged, the Department must be notified in writing at least one month before the commencement of each stage, of the date of commencement and the development to be carried out in that stage.	>1 month prior to Operations	Construction Compliance Reports Pre-operations Compliance Report	Notice of commencement to the Department (and date)	Not triggered
External Walls and Cladding					
D2	Prior to the occupation of the building, the Applicant must provide the Certifier with documented evidence that the products and systems used in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the requirements of the BCA.	Prior to Operation	Submission of information for Occupation Certificate Pre-Operation Compliance Report	Issuance of Occupation Certificate	Not triggered
D3	The Applicant must provide a copy of the documentation given to the Certifier to the Planning Secretary within seven days after the Certifier accepts it.	Prior to Operation	Submission of information for Occupation Certificate Pre-Operation Compliance Report	Issuance of Occupation Certificate (and date) Submission of information for Occupation Certificate to the Planning Secretary, with date referenced to issue of Occupation Certificate	Not triggered

		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
Post-construction Dilapidation Report					
D4	Prior to occupation of the building, the Applicant must engage a suitably qualified person to prepare a post-construction dilapidation report at the completion of construction. This report is: (a) to ascertain whether the construction created any structural damage to adjoining buildings or infrastructure.	Prior to Operation	Works planning / programming Pre-Operation Compliance Report	Post dilapidation reports	Not triggered
	(b) to be submitted to the Certifier. In ascertaining whether adverse structural damage has occurred to adjoining buildings or infrastructure, the Certifier must: i. compare the post-construction dilapidation report with the pre-construction dilapidation report required by these conditions; and ii. have written confirmation from the relevant authority that there is no adverse structural damage to their infrastructure and roads.			Submission of reports to Certifying Authority and Council	
				Certifying Authority statement of review and written confirmation on damage.	
				(c) to be forwarded to Council.	
Protection of Public Infrastructure					
D5	Unless the Applicant and the applicable authority agree otherwise, the Applicant must: (a) repair, or pay the full costs associated with repairing, any public infrastructure that is damaged by carrying out the development; and	Prior to Operation	Dilapidation reporting Pre-Operation Compliance Report	Pre and post dilapidation reports	Not triggered
	(b) relocate, or pay the full costs associated with relocating any infrastructure that needs to be relocated as a result of the development.			Commercial agreements	
				Note: This condition does not apply to any damage to roads caused as a result of general

		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	road usage or otherwise addressed by contributions required by A1 of this consent.				
Utilities and Services					
D6	Prior to occupation of the building, the Applicant must obtain a Compliance Certificate for water and sewerage infrastructure servicing of the site under section 73 of the Sydney Water Act 1994.	Prior to Operation	Works planning / programming Pre-Operation Compliance Report	Compliance Certificate	Not triggered
Works as Executed Plans					
D7	Prior to occupation of the building, works-as-executed drawings signed by a registered surveyor demonstrating that the stormwater drainage and finished ground levels have been constructed as approved, must be submitted to the Certifying Authority.	Prior to Operation	Submission of information for Occupation Certificate Pre-Operation Compliance Report Design plan review	Stamped 'works as executed' plans Occupation Certificate issuance	Not triggered
Green Travel Plan					
D8	Prior to the commencement of operation, a Green Travel Plan (GTP), must be prepared and be submitted to the Secretary to promote the use of active and sustainable transport modes. The plan must: (a) be prepared by a suitably qualified traffic consultant in consultation with Liverpool Council and (Sydney Coordination Office) Transport for NSW];	Prior to Operation	Submission of information for Occupation Certificate Pre-Operation Compliance Report	GTP that demonstrates compliance with this requirement Consultation records with TfNSW and Council Submission of GTP to Planning Secretary	Not triggered
	(b) include objectives and modes share targets (i.e. Site and land use specific, measurable and achievable and timeframes for implementation) to define the direction and purpose of the GTP;

		At all times			Compliant
		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
	(c) include specific tools and actions to help achieve the objectives and mode share targets;				
(d) include measures to promote and support the implementation of the plan, including financial and human resource requirements, roles and responsibilities for relevant employees involved in the implementation of the GTP; and					
(e) include details regarding the methodology and monitoring/review program to measure the effectiveness of the objectives and mode share targets of the GTP, including the frequency of monitoring and the requirement for travel surveys to identify travel behaviours of students and staff to and from both schools at appropriate times throughout the academic year.					
Operational Transport and Access Management Plan (OTAMP)					
D9	An OTAMP is to be prepared for the school by a suitably qualified person, in consultation with Council, Transport for NSW and RMS, to the satisfaction of the Secretary, and must address the following: (a) Detailed pedestrian analysis including the identification of safe route options – to identify the need for management measures such as staggered school start and finish times to ensure students and staff are able to access and leave the Site in a safe and efficient manner during school start and finish;	Prior to Operation	Submission of information for Occupation Certificate Pre-Operation Compliance Report	Evidence of author experience and qualification OTAMP that demonstrates compliance with this requirement Consultation records with TfNSW, RMS and Council Written approval from Planning Secretary	Not triggered

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
	(b) the location of all car parking spaces on the school campuses and their allocation (i.e. staff, visitor, accessible, emergency, etc.); (c) the location and operational management procedures of the pick-up and drop-off parking located within the school, including staff management/traffic controller arrangements; (d) delivery and services vehicle and bus access and management arrangements; (e) management of approved access arrangements; (f) potential traffic impacts on surrounding road networks and mitigation measures to minimise impacts, including measures to mitigate queuing impacts associated with vehicles accessing pick-up and drop-off parking within the school accessed from Williamson Crescent; (g) car parking arrangements and management associated with the proposed use of school facilities by community members; and (h) a monitoring and review program.				
D10	The OTAMP(s) must be submitted to the Secretary for approval prior to operation of the development.	Prior to Operations	Submission of information for Occupation Certificate Pre-Operation Compliance Report	Date of written approval from Planning Secretary Date of issuance of Occupation Certificate	Not triggered
D11	The OTAMP(s) (as revised from time to time) must be implemented by the Applicant for the life of the development	During Operations	-	-	Not triggered
Evacuation and Emergency Planning					

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)
		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
D12	No later than six weeks prior to the commencement of operation, an Operational Flood Evacuation and Emergency Management Plan (OFEMP) must be prepared by a suitably qualified person in consultation with the NSW SES and Council and in accordance with Floodplain Risk Management Guideline (OEH, 2007).	>6 weeks prior to Operations	Construction Compliance Reports Pre-Operation Compliance Report Submission of information for Occupation Certificate	Evidence of author experience and qualifications OFEMP that demonstrates compliance with this requirement Consultation records with SES and Council. Evidence of submission to NSW SES, Council and the Planning Secretary. Date of issuance of Occupation Certificate	Not triggered
	The plan should detail specific flood emergency measures required to be incorporated into the detailed design to mitigate impacts of a range of flood events up to and including the PMF and include measures to manage flood impacts outside the site to ensure accessibility is maintained. The plan must include details of:				
	(a) predicted flood levels;				
	(b) flood warning time and flood notification;				
	(c) assembly points and evacuation routes;				
	(d) evacuation and refuge protocols; and				
	(e) awareness training for employees and contractors.				
	A copy of the Plan must be submitted to the NSW SES, Council and the Planning Secretary.				

Unique ID	Compliance Requirement	Timing for Compliance	Monitoring Methodology	Evidence/ Comments	Compliance Status (to be assigned in each Compliance Report)

	provided to the Certifying Authority and the Planning Secretary			Permission from Planning Secretary to deviate from requirement	
PART E POST OCCUPATION					
Operation of Plant and Equipment					
E1	All plant and equipment used on site, or to monitor the performance of the development must be: (a) maintained in a proper and efficient condition; and (b) operated in a proper and efficient manner.	During Operations	To be determined	To be determined	Not triggered
Community Communication Strategy					
E2	The Community Communication Strategy, as approved by the Planning Secretary, must be implemented for a minimum of 12 months following the completion of construction.	During Operations	To be determined	To be determined	Not triggered
Operational Noise Limits					
E3	The Applicant must ensure that noise generated by operation of the development does not exceed the noise limits in the Noise Impact Assessment dated 29 August 2018 prepared by Acoustic Logic.	During Operations	To be determined	To be determined	Not triggered
E4	The Applicant must undertake short term noise monitoring in accordance with the Noise Policy for Industry where valid data is collected following the commencement the development. The monitoring program must be carried out by an appropriately qualified person and a monitoring report must be submitted to the Planning Secretary within two months of commencement use of the development to verify that operational noise	During Operations	To be determined	To be determined	Not triggered

	levels do not exceed the recommended noise levels for mechanical plant identified in the Noise Impact Assessment prepared by Acoustic Logic and dated 29 August 2018. Should the noise monitoring program identify any exceedance of the recommended noise levels referred to above, the Applicant is required to implement appropriate noise attenuation measures so that operational noise levels do not exceed the recommended noise levels or provide attenuation measures at the affected noise sensitive receivers.				
Hours of Operation					
E5	Use of the hall, sports field and hydrotherapy pool may only occur between 7:00am and 6:00pm Monday to Friday	During Operations	To be determined	To be determined	Not triggered
E6	Maintenance work may only occur between 7:30am and 6:00pm Monday to Friday	During Operations	To be determined	To be determined	Not triggered
Unobstructed Driveways and Parking Areas					
E7	All driveways, footways and parking areas must be unobstructed at all times. Driveways, footways and car spaces must not be used for the manufacture, storage or display of goods, materials, refuse, skips or any other equipment and must be used solely for vehicular and/or pedestrian access and for the parking of vehicles associated with the use of the premises.	During Operations	To be determined	To be determined	Not triggered
Green Travel Plan					
E8	The Green Travel Plan required by condition D8 of this consent must be updated annually and implemented.	During Operations	To be determined	To be determined	Not triggered
Outdoor Lighting

		<div>At all times</div> <div>Prior to Construction</div> <div>During Construction</div> <div>Prior to Operations</div> <div>During Operations</div>			<div>Compliant</div> <div>Non-compliant</div> <div>Not triggered</div>
E9	Notwithstanding Condition D27, should outdoor lighting result in any residual impacts on the amenity of surrounding sensitive receivers, the Applicant must provide mitigation measures in consultation with affected landowners to reduce the impacts to an acceptable level.	During Operations	To be determined	To be determined	Not triggered
Fire Safety Certificate					
E10	The owner must submit to Council an Annual Fire Safety Statement, each 12 months after the final Safety Certificate is issued. The certificate must be on, or to the effect of, Council's Fire Safety Statement.	During Operations	To be determined	To be determined	Not triggered
Landscaping					
E11	The Applicant must maintain the landscaping and vegetation on the site in accordance with the approved Landscape Management Plan required by condition D38 for the duration of occupation of the development.	During Operations	To be determined	To be determined	Not triggered
Asset Protection Zones					
E12	The asset protection zones required by condition D42 shall be maintained for the duration of occupation of the development.	During Operations	To be determined	To be determined	Not triggered
Hazards and Risk					
E13	The Applicant must store all chemicals, fuels and oils used on-site in accordance with: (a) the requirements of all relevant Australian Standards; and (b) the NSW EPA's Storing and Handling of Liquids: Environmental Protection – Participants Manual' if the chemicals are liquids.	During Operations	To be determined	To be determined	Not triggered

		Prior to Construction			Non-compliant
		During Construction			Not triggered
		Prior to Operations			
		During Operations			
E14	In the event of an inconsistency between the requirements of condition E13(a) and E13(b)E13(a), the most stringent requirement must prevail to the extent of the inconsistency.	During Operations	To be determined	To be determined	Not triggered
Bunding					
E15	The Applicant must store all chemicals, fuels and oils used on-site in appropriately bunded areas in accordance with the requirements of all relevant Australian Standards, and/or EPA's Storing and Handling of Liquids: Environmental Protection – Participants Manual (Department of Environment and Climate Change, 2007).	During Operations	To be determined	To be determined	Not triggered

Appendix B: Limitations

This Document has been provided by WolfPeak Pty Ltd (WolfPeak) to the Client and is subject to the following limitations:

This Document has been prepared for the particular purpose/s outlined in the WolfPeak proposal/contract/relevant terms of engagement, or as otherwise agreed, between WolfPeak and the Client.

In preparing this Document, WolfPeak has relied upon data, surveys, analyses, designs, plans and other information provided by the Client and other individuals and organisations (the information). Except as otherwise stated in the Document, WolfPeak has not verified the accuracy or completeness of the information. To the extent that the statements, opinions, facts, findings, conclusions and/or recommendations in this Document (conclusions) are based in whole or part on the information, those conclusions are contingent upon the accuracy and completeness of the information. WolfPeak will not be liable in relation to incorrect conclusions should any information be incomplete, incorrect or have been concealed, withheld, misrepresented or otherwise not fully disclosed to WolfPeak.

This Document has been prepared for the exclusive benefit of the Client and no other party. WolfPeak bears no responsibility for the use of this Document, in whole or in part, in other contexts or for any other purpose. WolfPeak bears no responsibility and will not be liable to any other person or organisation for or in relation to any matter dealt with in this Document, or for any loss or damage suffered by any other person or organisation arising from matters dealt with or conclusions expressed in this Document (including without limitation matters arising from any negligent act or omission of WolfPeak or for any loss or damage suffered by any other party relying upon the matters dealt with or conclusions expressed in this Document). Other parties should not rely upon this Document or the accuracy or completeness of any conclusions and should make their own inquiries and obtain independent advice in relation to such matters.

To the best of WolfPeak's knowledge, the facts and matters described in this Document reasonably represent the Client's intentions at the time of which WolfPeak issued the Document to the Client. However, the passage of time, the manifestation of latent conditions or the impact of future events (including a change in applicable law) may have resulted in a variation of the Document and its possible impact. WolfPeak will not be liable to update or revise the Document to take into account any events or emergent circumstances or facts occurring or becoming apparent after the date of issue of the Document.
