

Mainsbridge school relocation

Works notification

9 November 2020

Remediation work to remove potentially hazardous material

A project is underway to relocate the Mainsbridge School for Specific Purposes (SSP) to part of the existing Warwick Farm Public School site.

Over the next six weekends, crews will be working to remove potentially hazardous material on the area allocated for the new sportsground, located on the South-Eastern area of the site. The material to be removed includes lead and is also likely to contain bonded asbestos.

The removal of these materials will occur outside of school hours.

This work will take place between 8am and 4.30pm on the following dates:

- Week 1 Saturday 14 November 2020 and Sunday 15 November
- Week 2 Saturday 21 November 2020 and Sunday 22 November
- Week 3 Saturday 28 November 2020 and Sunday 29 November
- Week 4 Saturday 5 December and Sunday 6 December 2020
- Week 5 Saturday 12 December and Sunday 13 December 2020
- Week 6 Saturday 19 December and Sunday 20 December 2020

The material will be removed by a licensed removal contractor. All lead material will be excavated and disposed of off-site to an appropriately licensed facility. The works will be conducted in accordance with Safe Work NSW requirements with the following precautionary measures:

- isolation of the work area
- monitoring, testing and clearance certification by a consultant hygienist.

Please be aware that the remediation and removal of these materials will not pose a risk to staff, students or the local community.

We are here to make sure that work is completed safely and efficiently and we will minimise impacts on the community at every opportunity.

Thank you for your patience while we deliver this important school infrastructure.
