

Mainsbridge School

Project update | November 2021

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

Mainsbridge School has been relocated to be alongside Warwick Farm Public School.

The new learning environment caters for a range of disabilities. Some key features of the new building include:

- flexible learning zones
- immersive sensory room
- hydrotherapy pool
- living skills learning areas
- accessible entry and pathways.

Progress Summary

The main works at Mainsbridge School were completed in Early 2021. Staff and students have been using the new practical learning areas since October. The new facilities have introduced positive learning experiences which support student's developmental and functional living skills.

The completion of the sports field, soft fall and play equipment area has been affected by COVID-19 delays, however the project is now nearing completion. We thank you for your patience and understanding as we continue to deliver this important project.

Next Steps

The final works include:

- completion of the sports field
- completion of a bike track including soft fall and play equipment areas
- landscaping to the southern portion of the site.

The works are expected to be completed in late 2021. Once finished, the construction fencing and site offices will be removed, and the sports field and play equipment areas will be open to students across Mainsbridge and Warwick Farm Public School.
