Mainsbridge School

Project update

October 2020

Investing in our schools

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Mainsbridge School relocation

The new school will deliver purpose-built facilities that cater to the needs of the current students across primary and high school.

The new facility will provide flexible learning spaces including quiet zones designed with consideration for children with specific needs, an administration and staff building, a multipurpose hall and performance stage, external play spaces, sports field, a two-storey library with multimedia areas and an indoor hydrotherapy pool.

Project completion

The Mainsbridge School relocation is projected to be finished in early 2021, with students and staff relocating to the new site from Day 1 Term 2 2021.

Progress summary

- The roofs have been finished in the Homebase buildings and the façade walls are under construction.
- The structural steel is now complete in the hall and library buildings.
- The ground slab has been poured for the pool area.

Next steps

Over the coming weeks we will be:

- installing structural steel to the hydrotherapy pool and starting the façade works to all other blocks
- beginning works to the entry driveway and the landscaping.

Construction working hours

The working hours for this project are 7am to 6pm, Monday to Friday and 8am to 4 pm on Saturdays and Sundays. No works will be undertaken on public holidays.
