Manly Village Public School

Project update | November 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

School Infrastructure NSW (SINSW) is upgrading Manly Village Public School to meet the needs of the local community. Subject to approval, the benefits of the project will include:

- relocation and upgrade to administration facilities
- new fit for purpose learning spaces including a new special programs space and additional breakout rooms and storage spaces
- new out of school hours care (OOSHC) facilities in the school hall.

Progress summary

All internal works, involving relocating the main switchboard to the new administration area in Building D, have been completed. A power upgrade has been lodged with Ausgrid and is awaiting approval.

The Review of Environmental Factors has been finalised, including addressing the feedback that was raised, and we expect approval on this soon.

Next steps

The main works tender is due to be released in the next two weeks, with a contractor expected to be appointed and main works beginning in early 2023.

Manly Village Public School Main Works – Stages 1, 2, and 3

Keep informed

We will continue to keep the community updated on progress about this important upgrade. All information about the project can be found on the SINSW website at:
