# Manly Village Public School

Project update | February 2024

## Project overview

We are upgrading Manly Village Public School to meet the needs of the local community. The project includes relocating and upgrading administration facilities, a new fit-for-purpose learning space with a new special programs space, additional breakout rooms, and storage spaces.

It also includes new out of school hours care (OOSH) facilities in the school hall.

## Progress summary – Stage 1 complete

During the school holidays, we completed Stage 1 of the Manly Village Public School upgrade. At the start of Term 1, OOSH permanently relocated to the upgraded facilities in Building E. Stage 1 works included:

- extension of Building E, including roofing, painting and flooring
- new OOSH kitchen and office in Building E
- new OOSH storerooms in Building D.

Stage 2 started in late 2023 and is progressing well with demolition works now complete in Building D. These works include an upgrade to Building C and the heritage-listed School of Arts building (Building D), relocating administration rooms and executive offices, four classrooms and ancillary rooms. An accessible lift will also be installed to connect all floor levels.

We will carry out external refurbishments to install a covered walkway and new stairs to connect Buildings C and D, along with landscaping. In Building C, all windows and eaves will be repaired and painted then new gutters and downpipes installed. Building D will undergo draining upgrades and roof repair, including new gutters, flashings, capping, downpipes, roof insulation and sheets.

Following this, an external perimeter scaffold will also be installed, to facilitate facade remediation and re-pointing of brickwork on Building D.

## Next Steps

In mid-2024, Stage 3 works will start. This will involve internal refurbishments of Buildings A and B, including converting the existing administration area to a special programs classroom on the ground floor of Building A.

The Manly Village Public School upgrade is scheduled for completion in late 2024.

### Get involved

We will continue to keep the community informed with regular project updates throughout the course of construction.
