Demolition works involving the removal of asbestos containing material in Building C (outlined in the notification below) will be completed on **Saturday 9 March 2024**. In the event of any unexpected delays, these works will be completed on Saturday 23 March.

---

## 21 February 2024

The planned work outlined in the notification below has been extended. Works will now take place on **Saturday 24 February** and **Saturday 2 March**.

Thank you for your understanding.

---

## 16 February 2024

Dear staff and parents/carers,

As part of the Manly Village Public School upgrade we are doing demolition works in Building C. This work will involve working with asbestos containing material in the flooring and ceiling.

Building C is within an active construction site and remains cordoned off to students and staff.

Work to remove the vinyl floor tiles and ceiling linings will take place Saturday 24 February. All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and air monitoring in place before the work starts.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Building C will be inspected by an independent hygienist to confirm it has been fully remediated, and the building contractor will receive a clearance certificate before construction resumes.

The health, safety, and wellbeing of the school and the local community is our highest priority. If you have any questions about the work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
