

Meadowbank Education and Employment Precinct

Works notification

January 2023

Schools at the Meadowbank Education and Employment Precinct | Access and Amenity

Dear neighbour

Further to our correspondence issued in December 2022 regarding a new pedestrian crossing and associated streetlights to be installed on Mellor Street, near the corner of Macpherson Street, the design of the crossing is now finalised with Council.

Due to some delays over the holiday break, the first stage of the Mellor Street crossing works will now commence from Monday 23 January 2023. The works are estimated to take approximately two to three weeks, pending weather, with completion anticipated on the 10 February 2023. These works will include:

- Amendment to the footpath on either side of the crossing, including the installation of new ramps
- Installation of new traffic islands
- Removal of rumble bars
- New signage and make good landscaping works.
- Tree trimming

Changes to traffic, parking and access

There will be changes to pedestrian and vehicle access near the intersection of Mellor and Macpherson Street as part of these works, including:

- Traffic control to ensure the safe movement of pedestrians and traffic. Any temporary changes to traffic movements or parking will be clearly signposted and monitored by traffic controllers.
- Impacts to parking and traffic movement in the direct vicinity of the works.
- Permanent loss of two car spaces on the eastern side of Mellor Street and three car spaces on the western side.

Stage two of the works to complete the crossing is anticipated to take place in March/April 2023 and will include:

- Installation of two new streetlights for the new crossing
- Followed by painting the crossing on the street

Once these works are confirmed with Ausgrid we will provide further updates to confirm timing and a detailed scope of works.

Please contact School Infrastructure NSW during business hours on 1300 482 651 with any enquiries.
