Milperra Public School

Project update

April 2021

Investing in our schools

The NSW Government is investing $7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway to build a new hall at Milperra Public School.

The benefits include:

- A new hall including a communal hall area, stage and storage area.
- The existing hall will be repurposed as part of a separate project.

Progress summary

The concept design is finished the schematic design phase is underway. Site investigations continue to assist planning of the project.

Next steps

- Complete schematic design.
- Project Reference Group (PRG) meetings continue.
- Prepare tender for construction.

We will share details of the design for the new hall when it is available.

Pending development approval, we expect construction of the new hall to commence mid-2021. Repurposing of the existing hall will be undertaken in a later stage by the School Infrastructure NSW (SINSW) regional office.

How can I get involved?

We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students.

Your feedback on this project is important to us. For more information, questions or to make a comment please email us at schoolinfrastructure@det.nsw.edu.au.
