Milperra Public School

Project update | February 2022

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway to deliver a new hall at Milperra Public School. The new school hall will include a stage and storage facilities, while the existing hall will be repurposed as part of a separate project.

Progress summary

During the summer holidays, we upgraded pedestrian pathways inside the school to improve accessibility and installed foundations and conduits for service connections.

The concrete slab has been poured.

Next steps

In the next few weeks, the Contractor will:

www.schoolinfrastructure.nsw.gov.au

- install structural steel
- install roof framing and roof sheets

In March, the Contractor will start excavation for the onsite detention tank (OSD). This will involve removing a small amount of asbestos-containing material.

Testing conducted by an independent hygienist has confirmed that the material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

As a precaution, the area has been cordoned off and will remain out of bounds to students and staff until remediation is completed.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Working hours

Working hours are Monday to Saturday, 7 am to 5 pm. No work will occur on Sundays or public holidays, unless otherwise advised. Please note that works on the service conduit and pathway upgrades will happen outside of school hours.

All work will be within NSW Government's Public Health Orders and relevant COVID restrictions.

Thank you for your patience while we deliver this important school infrastructure.
