

Millthorpe Public School

Works notification | 3 August 2023

We are upgrading Millthorpe Public School with new and refurbished facilities to support the local student community.

Works at Redmond Oval

From Monday 7 August to Friday 11 August, we will be constructing a footpath along the oval fence of the car park at Redmond Oval.

To do this, we will be operating an excavator along the fence line and a small tipper truck to stockpile material on the school site, before pouring the concrete path.

During these works, impacts will be minimal, with only some car spaces out of use. Traffic will still be able to pass through the carpark.

There will still be pedestrian access to the oval and public amenities remain open during the works.

Accessible parking at the oval can still be accessed and alternative parking on Park Street and surrounding streets remains available.

We appreciate your understanding while this work is in progress.
