Millthorpe Public School

Project update

April 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway to upgrade Millthorpe Public School to bring students the latest educational facilities and support the local community.

The upgrade proposes to deliver: a new two-storey learning hub including 10 new flexible learning spaces (classrooms), a new library and maker spaces.

Existing buildings will also be upgraded to provide a new administration area and new staff rooms. The heritage Block B will be internally renovated, assembly court upgraded and new covered outdoor areas and walkways installed.

Progress summary

Site investigations and works to prepare for construction, including the relocation of existing demountables were completed in the 2020-21 summer holiday period.

The concept designs were shared with the community at information sessions in March 2021. Feedback received is being considered during the ongoing design process.

A Development Application (DA) was lodged with Blayney Shire Council in April 2021.

An Early Contractor Involvement (ECI) contract has been awarded to Lipman PTY Ltd.

Next steps

- Developing the detailed design
- Preparing site management plans
- Finalising the construction methodology to minimise impacts to the school and local community.

How can I get involved?

Your feedback on this project is important to us. For more information, questions or to make a comment please email us at schoolinfrastructure@det.nsw.edu.au.
