

Milton Public School upgrade

As part of the NSW Government’s plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$1.4 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

As part of this investment Milton Public School will receive an upgrade that will include:

- 

14 new standard classrooms
- 

3 new support learning classrooms
- 

new student amenities
- 

removal of demountable buildings

Artist impression of the new two-storey building (subject to change)

Upgrading Milton Public School

The upgrade at Milton Public School will replace 11 temporary teaching spaces with state of the art permanent classrooms.

The new two-storey building will include:

- 14 general learning classrooms
- 3 support learning classrooms
- New student amenities.

Progress Summary

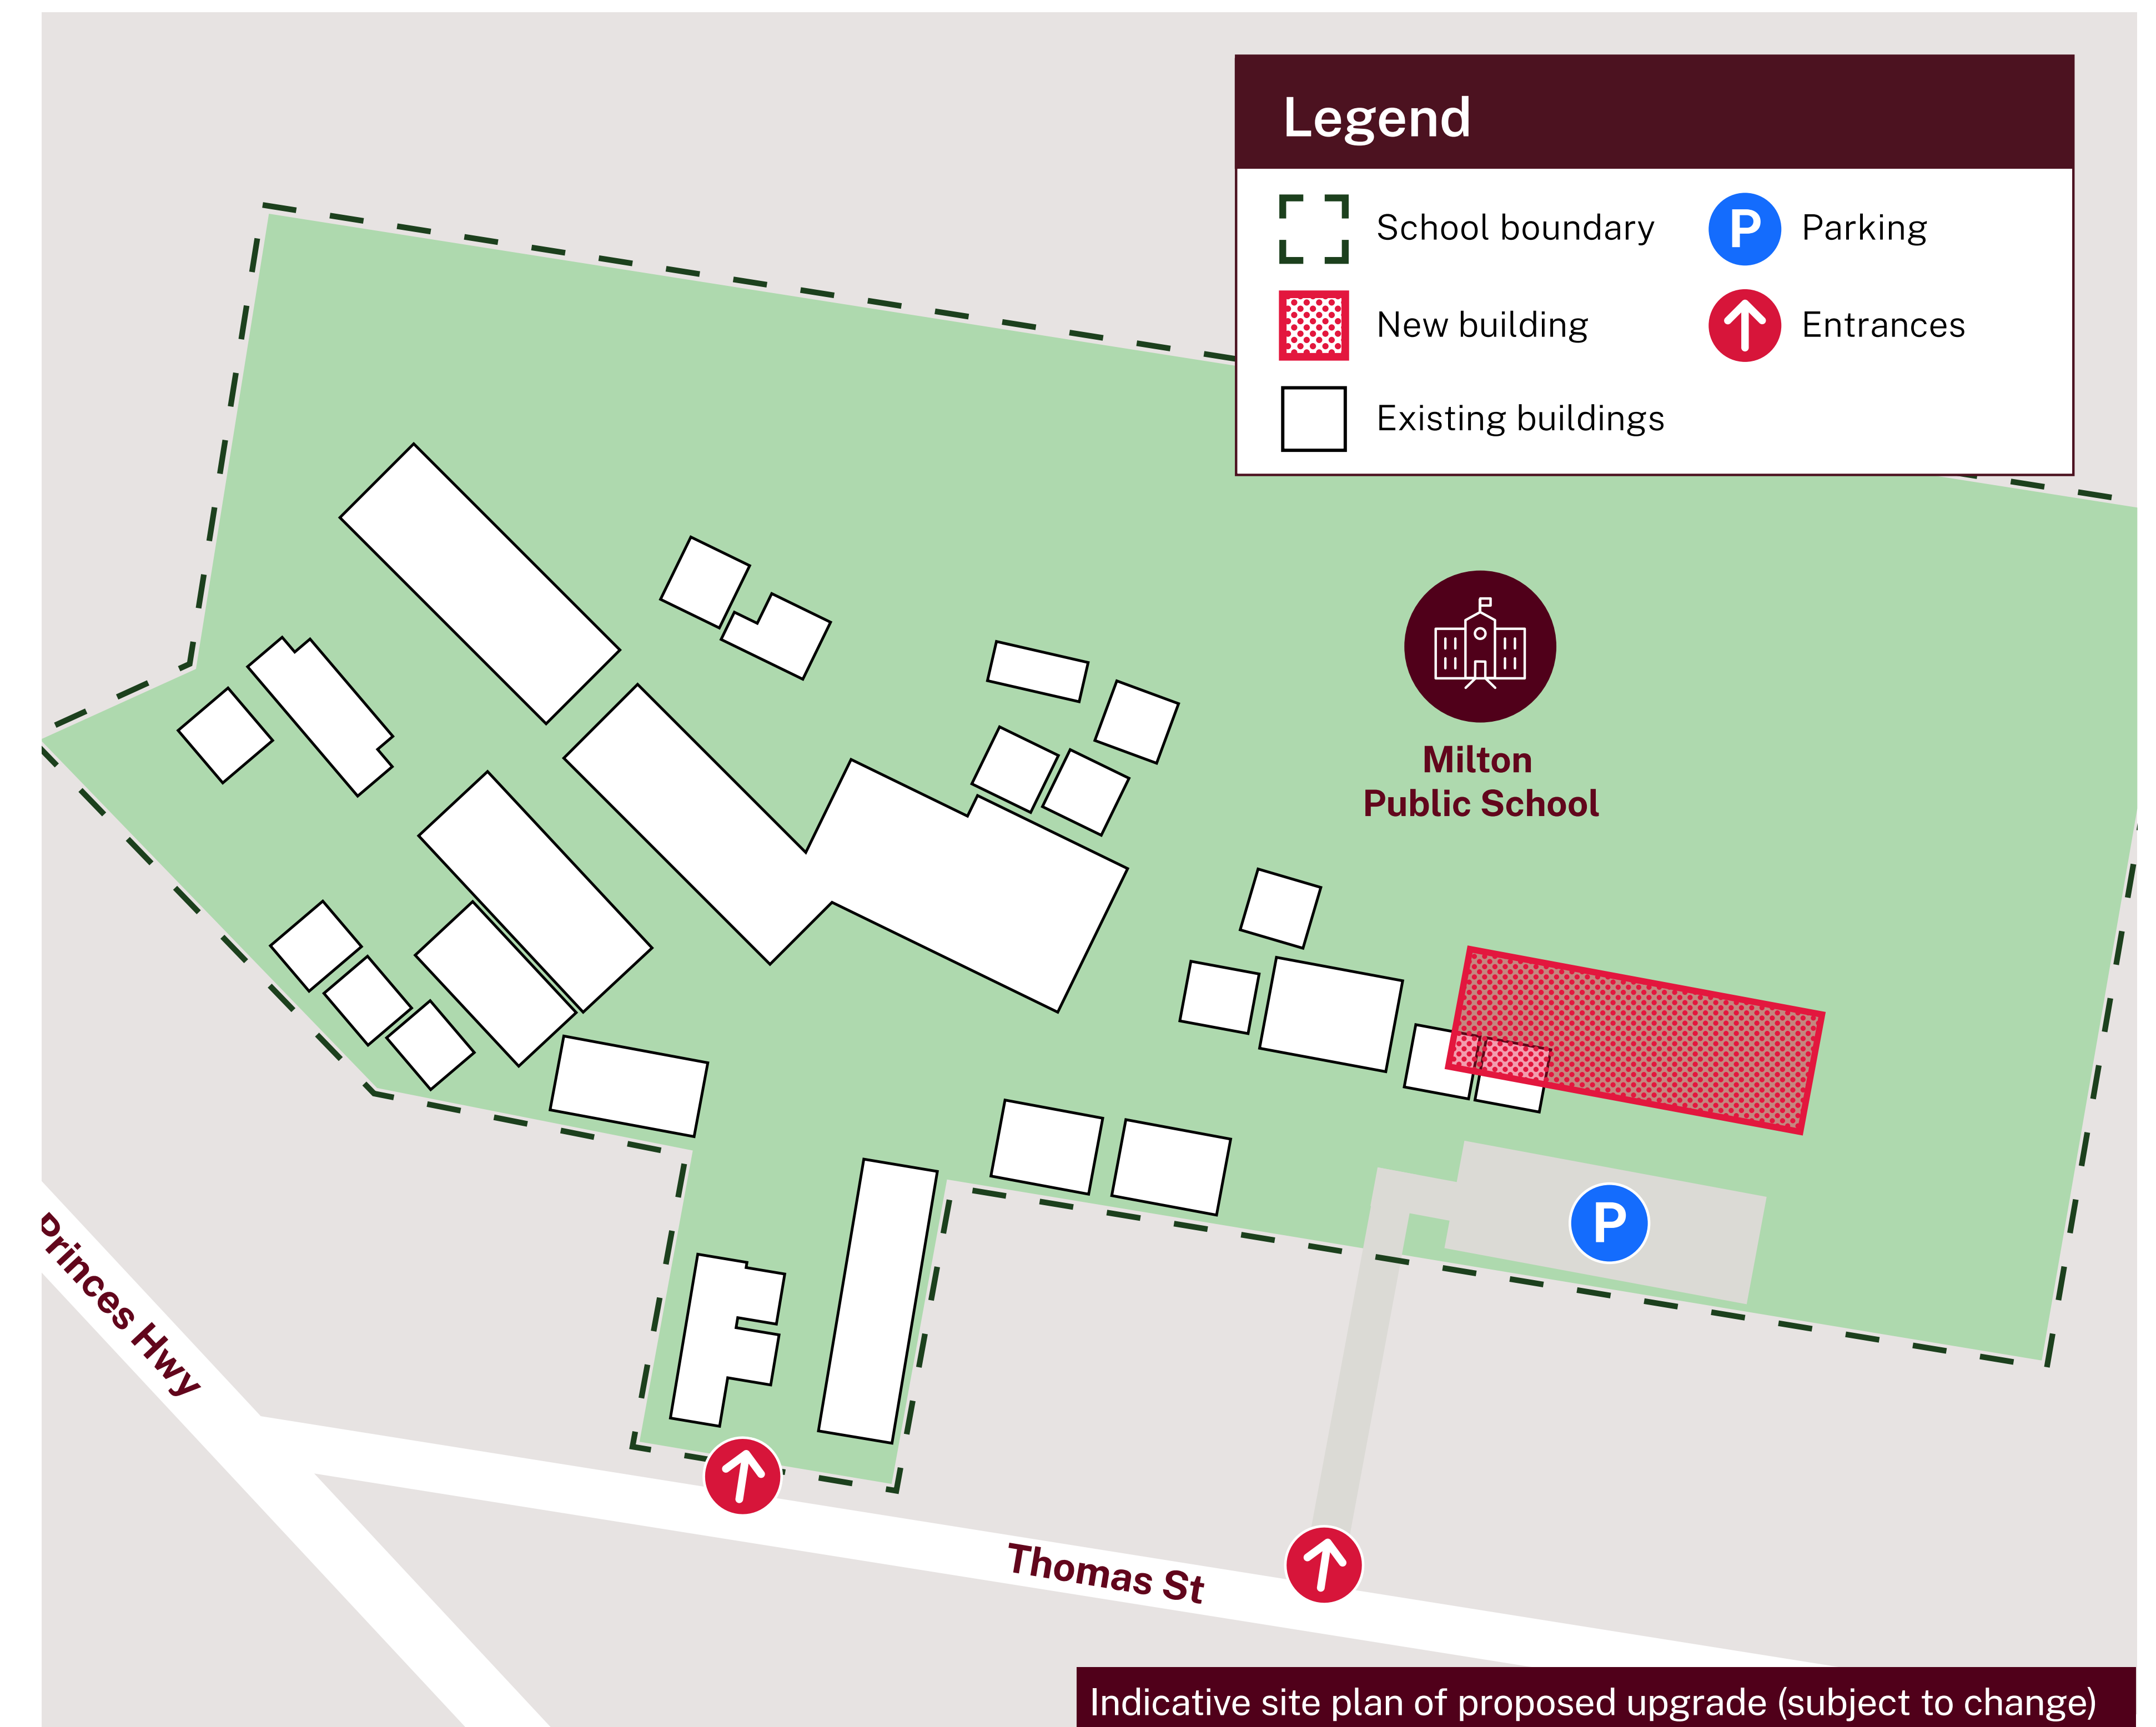

The master plan and concept design have now been completed by the design team following consultation with the Project Reference Group (PRG). The PRG involves key stakeholders including local educational experts, architects, planners and design professionals in order to ensure designs are fit for purpose.

Next Steps

The design team has almost completed the next stage of the design. This stage includes defining building materials, room details, and the furniture, fixtures and equipment (FF&E) to be used. The project team is consulting with the school leadership to ensure that the classroom designs and layouts support teaching and learning needs.

Additionally, we are finalising the necessary documentation to seek planning approval and start the tender process for appointing a builder.

The timeline for construction will be finalised when the builder has been appointed, and the project has planning approval.

Timeline

The timeline above is subject to change. We will finalise a delivery program once the construction contractor has been appointed and the project has received planning approval.

Managing construction impacts

We will work with the contractor to manage impacts on the local community, and in close consultation with Milton Public School leadership to ensure that school operations continue with minimal disruption.

For more information about how we manage construction impacts on our projects, please visit edu.nsw.link/ConstructionImpacts or scan the QR code above left.

Stay informed

Information about the project can be found at edu.nsw.link/MiltonPSUpgrade or by scanning the QR code.
