

Students learning in the refurbished facilities in Block E at Mona Vale Public School

Mona Vale Public School

Project update

May 2022

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Project overview

A project is underway to upgrade Mona Vale Public School. The project will deliver:

- a new building (Block R) containing 6 learning spaces and 3 support classes
- upgrades and refurbishments to Blocks B, D, E and H which contain learning spaces, support units, reading rooms, hall, canteen, staff facilities and amenities
- a new performing arts centre
- a new staff and administration space
- removing old buildings and improving space and connectivity throughout the school.

Progress summary

We worked hard during the Easter break to complete most of the work in Block E. This includes finishing the homebases, hall and new canteen. We also completed the junior covered outdoor learning area (COLA). All of these were completed in time for staff and students to enjoy them from Day 1 Term 2.

Work is continuing on the lift in Block E and refurbishment of amenities in Block N.

Construction of the new building (Block R) has progressed since our last update, with the roof and brick façade now nearing completion. Internal fit out of the building is underway and will continue through the next quarter.

Works have also started on the refurbishment of existing learning spaces and ground works for the new performing arts centre.

Next steps

- Internal fit out, roofing and brick façade installation for the new building (Block R). Landscaping works will follow.
- Refurbishment of Block D, which contains the homebases and satellite library.
- Earthworks for the new performing arts centre.

Construction work hours

Construction work hours are Monday to Saturday, 7:00 am to 6:00 pm. No work will be undertaken on Sunday or on public holidays.
