

Mona Vale Public School

Works notification | 9 November 2021

A project is underway to deliver an upgrade to Mona Vale Public School. The project will provide new and upgraded learning spaces and core facilities, including a performance space for shared use within the community. Main works began in June 2021 and are progressing well.

Concrete slab pour and changed traffic and pedestrian conditions on Waratah Street

Thursday 11 November to Tuesday 16 November.

We are writing to inform you that as per our previous notification, the concrete pour for Building R slab did not go ahead on Saturday 6 November as planned, due to weather conditions.

Weather and site conditions pending, the concrete pour is anticipated to go ahead some time during the period of Thursday November 11 to Tuesday November 16. There will be an increase in construction activity at Mona Vale Public School during this time.

Additional heavy vehicle movements will occur along Waratah Street including concrete trucks. Traffic controllers will be in place on Waratah Street for the duration of the works to ensure safety for pedestrians and vehicles, and to minimise congestion and disruption.

Construction hours are 7:00am to 6:00pm Monday to Friday, 7:00am to 5:00pm Saturday and 9:00am to 5:00pm Sunday.

In the event of Severe weather, the concrete pour may be postponed.

The equipment used will generate some additional noise.

Temporary access changes

If the pour occurs on a school day, the Waratah Street school pedestrian gate access will be temporarily closed off during these works, to ensure the safety of staff and students. Students, staff and parents are advised to access the school via the Bungan Street gate.

We are here to make sure that work is completed safely and efficiently and we will minimise impacts on the community at every opportunity.

Thank you for your patience while we deliver this important school infrastructure.
