

Example of a flexible learning space we are delivering across NSW

Monaro High School

Project update

August 2019

Investing in our schools

The NSW Government is investing \$6.7 billion over the next four years to deliver 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

Monaro High School upgrade

A project is underway to upgrade Monaro High School. The project will deliver:

- new flexible learning spaces, including specialised learning spaces for art, performance, and technology in a dedicated STEAM hub
- a new two-storey performing arts centre with capacity for 350 people, including health and physical education facilities
- a new semi-commercial kitchen
- upgrade of wood and metal workshops
- refurbished staff facilities

Progress summary

Concept and schematic design is complete. The construction tender is expected to be awarded in late September. Once the construction contract has been awarded, detailed design will commence.

Site establishment – commencing late 2019

Site establishment and minor early works to prepare the sites for construction will commence from late 2019. This will include the erection of site fencing and signage, the setup of site facilities, installation of site access points and the commencement of preparation works for building conversions and refurbishments.

Information booth – Friday 16th August

There will be an information booth held at the school on **Friday 16th August** from **8am – 2pm**. We invite you to come along to meet the project team and find out more about the project.

Keeping you updated

We will continue to keep you updated about project information as the project progresses. This information will be provided through project updates, information booths, works notifications and our website.
