## Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2025-26 Budget is delivering \$2.1 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

## Project overview

We are upgrading the Support Unit at Moruya High School to better support students with additional needs. The project will replace the existing temporary classrooms with a Support Unit that will cater to the needs of students now and into the future.

The upgrade will deliver:

7 permanent support classrooms with practical activities areas and break out spaces

covered outdoor learning area (COLA) with soft fall play surface

accessible toilets and changerooms with dedicated laundry

kitchen and staffroom

outdoor play area

new access road with undercover drop off area

All classrooms within the Support Unit will be fitted with air conditioning and the building will include solar power.
