(subject to change)

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the NSW Budget is delivering \$2.1 billion for new and upgraded schools in regional NSW.

This includes investment in the high potential and gifted education (HPGE) Partner School program, and Moruya High School will receive upgrades to facilitate the delivery of tailored HPGE course offerings. We are also upgrading the Moruya Support Unit to better support students with disabilities and other special needs.

Support unit upgrade

We are upgrading the Support Unit at Moruya High School to better support students with additional needs. The upgrade will include 7 new classrooms with specialised facilities spread across two buildings. These will replace the existing temporary classrooms and provide a Support Unit designed to meet the needs of students now and into the future.

High potential gifted education upgrades

Under the HPGE Partner Schools program, Moruya High School will receive facility upgrades to accommodate increased enrolments, broaden educational opportunities and facilitate the delivery of tailored HPGE course offerings. The upgrades will include TAS and STEM classrooms and upgrades to school facilities.

Progress summary

- Construction of the Support Unit started in October 2025. Detailed excavation has been completed to prepare for footings and the installation of drainage and electrical services.
- Early planning and design work is underway for the HPGE facility upgrades.

Next steps

- Pour concrete for the footings and the concrete slab.
- Install structural steel framing of the Support Unit.
- Further updates about the planning and timeline for the HPGE facility upgrades will be shared with the school community once available.
