

Mosman High School upgrade

Works notification | 21 December 2023

Mosman High School is being upgraded to provide students with the latest educational facilities for teaching and learning. The project is almost finished, and the whole school upgrade will be ready for students to use for Day 1 Term 1 2024.

Work on Gladstone Avenue pedestrian crossing from Monday 8 January 2024

School Infrastructure NSW (SINSW) will be delivering a new pedestrian crossing on Gladstone Avenue, under the scope of the state significant development (SSD) application that was approved by the Department of Planning. This crossing was a condition of the SSD conditions of consent.

The pedestrian crossing will improve safety for Mosman High School students and the local community, including local road users, which is our highest priority. Mosman Council approved the location of the crossing in August 2023.

Construction work on the new pedestrian crossing will start on Monday 8 January 2024 on Gladstone Avenue and is expected to take approximately 3 weeks to complete.

During the construction works, approximately four on-street parking spaces will be reserved for construction vehicles.

Traffic controllers will be in place for the duration of the work to support road users and pedestrians.

Please see overleaf for a map of the pedestrian crossing and parking changes.

Working hours

These works are taking place during the hours of 7 am to 6 pm Monday to Friday and 7.30 am to 3.30 pm on Saturdays. Unless otherwise notified, no work will take place on Sundays or public holidays.

The health, safety, and wellbeing of the school and the local community is our highest priority, and we will continue to keep the community updated.
