Mosman High School upgrade

Project update | June 2023

Project overview

Mosman High School is being upgraded to provide students with the latest educational facilities for teaching and learning. The upgrade project is delivering 16 additional flexible learning spaces, a new library, a multipurpose gym/hall, a canteen, and administration/staff facilities. The project also includes new outdoor and rooftop play spaces.

Progress summary

Construction work on Building G is almost finished, with final fixtures, furniture and equipment being put in. The building is expected to be finished in July 2023. The school will then move in over the July 2023 school holidays, ready for learning to start from the new building from Day 1 Term 3 2023.

Next steps

During the July 2023 school holidays, demolition work will start on building C and demountables will be removed from the school site. Building C is the existing building in the centre of the school site. The dismantling and demolition of this building will involve working with asbestos containing material and there will be workers on site wearing personal protective equipment. There will also be increased activity on site with vehicles entering and exiting the site via Gladstone Avenue. A works notification will be shared with the community with more information about these demolition and demountable removal works, and associated safety measures.

Once the demolition of building C has finished, the area will be remediated and construction will start on external landscaping works and finishing work on the staff carpark.

From Day 1 Term 3, entrance to the school will be via the new entrance on Belmont Road. Students may continue to use the existing gates on Gladstone Avenue and Military Road. The Avenue Road gate will not be in use. Please see the map overleaf showing the new entrance to the school.

For more information

If you have questions or concerns about the upgrade works contact School Infrastructure NSW on 1300 482 651 or email schoolinfrastructure@det.nsw.edu.au.
