

# Murrumbidgee Regional High School

## Stage 1 works completion

The stage 1 works at the Griffith and Wade sites of Murrumbidgee High School are now complete. The upgrade across the two sites included:

### Griffith site

Conversion of administration and staff areas into flexible learning spaces

New vertical circulation hub, including an elevator

New administration reception area

New outdoor decking area, landscaping and outdoor furniture

### Wade site

A two-storey Learning Resource Centre with multi-purpose learning spaces

A new canteen

New senior study areas and collaboration spaces for students and staff

Landscaping and new outdoor furniture

# Message from the Principal

Our school is excited to announce the completion of the Murrumbidgee Regional High School refurbishments.

The new flexible learning spaces bring greater opportunities for interconnected learning experiences for all our students and staff.

Our staff have enjoyed the interactivity and ability to connect with their colleagues in the recently completed staff collaboration spaces.

The new Learning Resource Centre on the Wade site, once a gymnasium, is the centrepiece of student interactivity, collaboration, research and STEM learning. The refurbished spaces at the Griffith site are highlighted by a technology STEM room, which seamlessly integrates with the new outdoor learning facility.

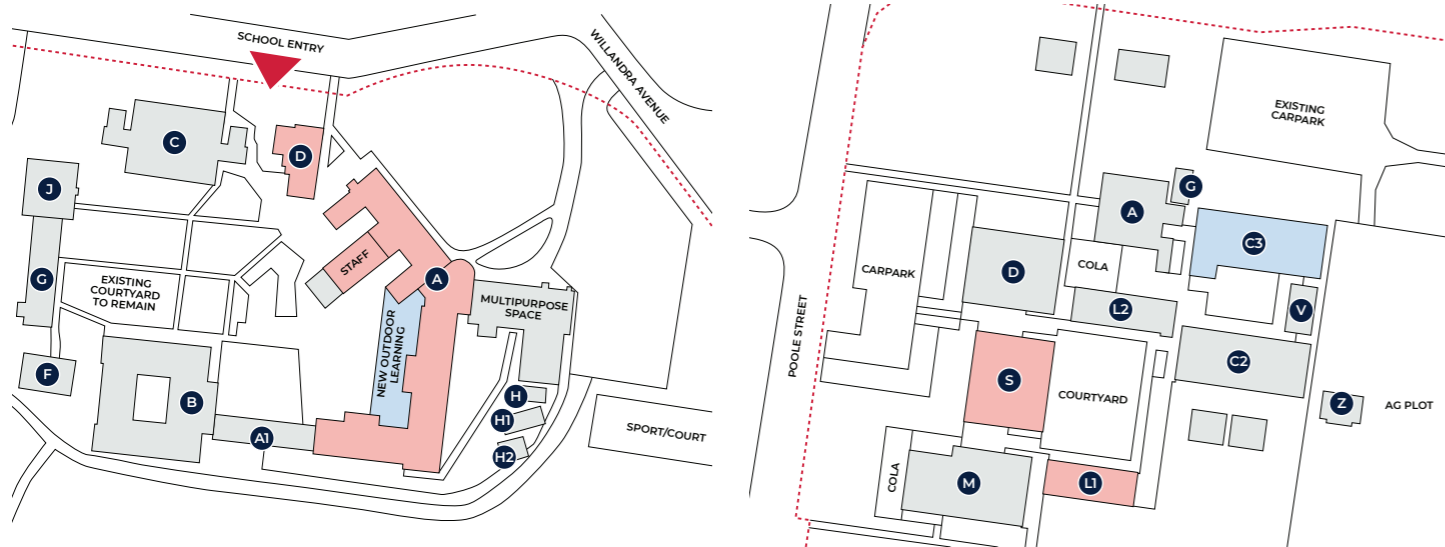

The focus of the refurbishment has been on collaborative student learning, with interconnected classrooms and learning streets. Our students will be able to come together in small groups or undertake individualised learning at their own pace.

The completion of these works marks the beginning of a revitalised and vibrant era at Murrumbidgee Regional High School. We thank you for your patience during construction and look forward to sharing our amazing new spaces with our community.

**David Crelley**  
Executive Principal

# Connected campus

Murrumbidgee Regional High School is the new high school model for Griffith. As part of this new model, the high school has received upgraded facilities across both Griffith and Wade sites.

The connected campus will enable peer support and integration opportunities for all students across our community.

New facilities such the upgraded library, tiered learning areas and senior study spaces will provide positive learning environments, that will in return build confidence in all areas of our student's school life.

Outdoor learning spaces at the Griffith site

New vertical circulation hub, including elevator at the Griffith site

New outdoor decking area, landscaping and outdoor furniture on Wade site

## Frequently asked questions

### Will there be any changes to the school entrances?

No, there are no changes to the school entrances.

### Are the upgraded facilities air conditioned?

Yes, all learning and practical spaces have air conditioning installed.

### How will students travel between the Wade and Griffith sites?

The school is committed to transporting students between sites safely. Free of charge bus services are

currently in place between the sites. Students requiring transport individually or in small groups are provided with free taxis to access the curriculum.

### Will there be any further upgrades to Murrumbidgee Regional High School?

As part of the 2021/22 budget announcement, Murrumbidgee Regional High School has received funding to upgrade their school facilities. Further updates regarding the Murrumbidgee Regional High School stage 2 upgrade will be released as the project progresses.
