

# Murwillumbah Public School

## Works notification | 10 April 2025

As part of the NSW Government's plan to rebuild essential services, the department is carrying out planned maintenance and other works to improve facilities at Murwillumbah Public School.

### Playground seating improvements

During the upcoming school holiday period, contractors will be onsite at Murwillumbah Public School to upgrade the student seating areas in the playground.

This work will include replacing aging pavers with tiered concrete and constructing a new retaining wall.

### Block D works

We will also be repainting and replacing carpet in one room of the heritage-listed old school hall building (Block D).

### Remediation works

Prior to repainting, a small section of old, lead-based paint will be removed. The room in question is currently not in use and not accessible to students, staff and school visitors.

All work will be done in accordance with work, health and safety laws. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

### More information

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your cooperation during this important work.
