

Murwillumbah High School

Works notification

13 December 2021

The NSW Department of Education is planning the development of an education campus at the Murwillumbah High School site. The campus will include a primary school and a high school co-located within an integrated, purpose designed and built education campus.

Aerial photography of Murwillumbah High School

From 9:30 am on Saturday 18 December 2021, we will be taking some aerial photographs of the Murwillumbah High School site using a drone.

The images will provide a valuable visual reference of what the outlook and views will be from the location of the proposed new campus buildings.

In the case of wet weather, the photography will be rescheduled to another day within the school holiday period.

The drone will:

- Be operated from inside the school grounds at all times
- Be flown by a professional photographer who holds the necessary accreditation and registration as required by the Australian Civil Aviation Safety Authority (CASA)
- Operate below 100 metres and 30 metres away from members of the public at all times in compliance with CASA regulations
- Not fly within 30 metres of private residences or identify and will capture any identifying factors of personal property or individuals.
