

Murwillumbah High School

Works notification

February 2021

We are planning the development of an education campus at the Murwillumbah High School site. The campus will include a primary school, a high school and school community health hub facilities co-located within an integrated, purpose designed and built education campus.

Aerial photography of Murwillumbah High School

On Saturday 13 February 2021 between 9:00am and 11:00am we will be taking some aerial photographs of the Murwillumbah High School site using a drone. The images will be used as a valuable visual reference of the site during the campus design process.

The drone will be flown by a professional photographer who holds the necessary accreditation and registration as required by the Australian Civil Aviation Safety Authority (CASA). The drone will operate below 100 metres and 30 metres away from members of the public at all times in compliance with CASA regulations.

The drone will take photographs from five locations as shown in red on the map overleaf to enable us to capture images of the school site from all sides. The drone will not fly within 30 metres of private residences.
