

Artist Impression of the new building for the Muswellbrook South Public School upgrade

# Muswellbrook South Public School

## Project update

May 2022

### Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

### Project overview

We are bringing you a major upgrade of the Muswellbrook South Public School to support the growing needs of the local community. The project will deliver 13 new and 18 upgraded permanent learning spaces, an upgraded administration building, new outdoor play courts, and outdoor seating and landscaping.

The project is being staged across four milestones:

- Milestone 1: Minor refurbishment of Blocks G, H, I and S (completed in January 2022)
- Milestone 2: Construction of new U Block (scheduled for completion mid-2023)
- Milestone 3a: Refurbishment of Block A (completed in April 2022)
- Milestone 3b: Refurbishment of Blocks B, C and R (scheduled for completion late-2023)

Upgraded staff room at Muswellbrook South Public School

### **Progress summary**

The refurbishment of the administration building (Block A) was completed in April 2022. This included new floorings, ceilings, lighting, paint, furniture, fittings and equipment, as well as an extension of the Principal and staff area and replacement of the entry ramp.

The upgraded administration building was handed over to staff for their use from Day 1 Term 2 2022.

### **Next steps**

Work will continue on completing the few remaining minor adjustments to the upgraded administration building. This will include finalising the entry ramp handrails and arranging some furniture items. We expect to have this completed within the next couple of weeks.

Approval of the Development Application (DA) is expected in the coming weeks which will allow the construction to the new learning building (Block U) to begin.
