

An example of facilities we are building for students across NSW

# New primary school in Mulgoa Rise Glenmore Park

Project update

August 2021

## Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW. A new public school is being developed to cater for the growing population in the Mulgoa Rise and Glenmore Park communities. The project will deliver modern facilities to support flexible learning.

## Progress summary

The master planning and concept design phases are now complete. Throughout the development of the design, the project team has sought input from the local community across a broad range of themes and issues. This feedback has been incorporated, where appropriate, in the design. A State Significant Development application will be lodged at the end of August, and will be on exhibition in early September for formal feedback.

## What is a State Significant Development Application?

State Significant Development (SSD) applications are used for projects that have special significance to the people and State of NSW. The Department of Planning, Industry and Environment (DPIE) is responsible for the planning approval process for SSD applications, rather than local council.

## How can I find out more about the SSDA?

You can find detailed information about the SSD application by going to the DPIE's website: [www.planningportal.nsw.gov.au/major-projects/project/40606](http://www.planningportal.nsw.gov.au/major-projects/project/40606)

## How can I provide feedback on the SSDA?

If you would like to provide feedback, make a formal submission during the exhibition period by following the 'Make a Submission' link at [www.planningportal.nsw.gov.au/major-projects/project/40606](http://www.planningportal.nsw.gov.au/major-projects/project/40606). All feedback on the SSD application should be directed to DPIE via this link.

## Virtual Information Session

A virtual information session will be live from 9 am 30 August to 5 pm 3 September. Here, you will find information about the project, including the design and site layout. You can access the virtual information session from the project webpage: [schoolinfrastructure.nsw.gov.au/projects/n/new-primary-school-in-mulgoa-rise-glenmore-park](http://schoolinfrastructure.nsw.gov.au/projects/n/new-primary-school-in-mulgoa-rise-glenmore-park)
