Narrabeen Education Campus

Project update | October 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next 4 years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW including Narrabeen North Public School and Narrabeen Sports High School to provide permanent teaching spaces and core facility upgrades.

Project overview

A project is underway to upgrade Narrabeen North Public School and Narrabeen Sports High School with new and improved education facilities to support the student community.

At Narrabeen North Public School, the project will provide:

- new flexible permanent learning spaces
- upgraded learning spaces
- new supported learning spaces
- upgrades to core facilities, including the library, administration and hall.

At Narrabeen Sports High School, the project will provide:

- new and upgraded learning spaces
- upgraded supported learning spaces
- new amenities and refurbished gym

Progress update

A Development Application (DA) for the Narrabeen Education Campus upgrade has been lodged with Northern Beaches Council and is now available to view on the Council website via [development online services](#) from 24 October until 21 November 2022. The DA reference number is DA2022/1649.

Schematic design for the whole project is complete and incorporates feedback from internal and external project stakeholders and school representatives.

The main works construction tender was released in early October 2022 based on the schematic design.

Next steps

Separate to the DA, a Review of Environmental Factors (REF) will be prepared for:

- Narrabeen North Primary School upgrade which includes the demolition of Building H, Building J and the amphitheatre, refurbishment of Building K and Building V; and construction of a new 2-storey building
- Narrabeen Sports High School upgrade which includes a 2-storey extension to Building A, construction of a new single-storey amenities building, and refurbishment of Building A, Building B, Building C and Building K.

REF works are classified as 'Development without Consent'. This means that School Infrastructure NSW can approve the proposed works subject to a detailed assessment of any potential impacts and consultation with Council, land owners and other relevant stakeholders.

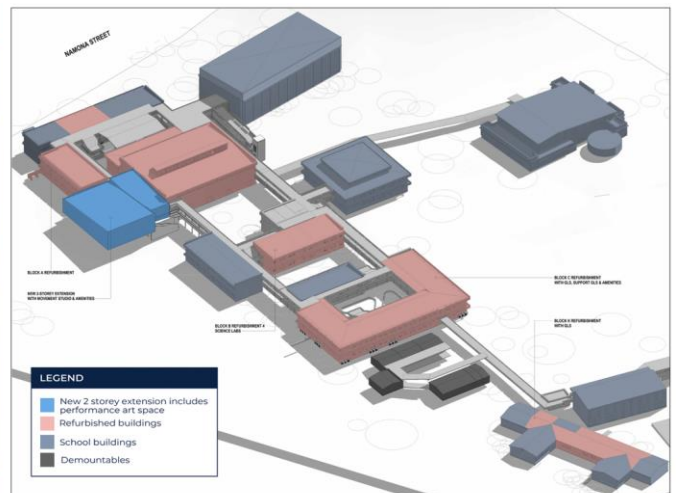

Construction of temporary school buildings will start in November 2022. Temporary school buildings allow learning to continue with minimal disruption, helping us support communities while delivering new and upgraded learning facilities at Narrabeen Education Campus.

How can I get involved in the project?

We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students. Your feedback on this project is important to us. For more information, questions, or to make a comment please contact us on the details below. Further updates will be released as the project progresses.
