

Example of innovative learning spaces

Narrabeen Education Campus

Project update

July 2021

Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Narrabeen Education Campus

The Narrabeen Education Campus project will deliver an upgrade to Narrabeen North Public School and Narrabeen Sports High School to provide additional permanent teaching space and core facility upgrades. This includes the provision of specialist sporting facilities for community access.

Progress summary

Early planning is now complete for Narrabeen Education Campus and we have received approval to progress planning and start the statutory approval process to deliver the project.

Next steps

We will now continue the development of the design and consult with stakeholders and the community to deliver a new school for the local community.

A Project Reference Group (PRG) will be reconvened. The PRG included architects, planners and design professionals, and Department of Education, representatives.

In the coming months, we will lodge a request for the Secretary's Environmental Assessment Requirements (SEARs), which is a key step in the planning process. The SEARs advise the studies that need to be included as part of the State Significant Development application.

How can I get involved?

We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students.

Your feedback on this project is important to us. We will notify the community ahead of information sessions and you contact us on the details below.
