

# Narrabeen Education Precinct

Information pack

February 2020

Example of an innovative learning space

The NSW Government is investing \$6.7 billion over four years to deliver more than 190 new and upgraded schools to support communities across NSW. In addition, a record \$1.3 billion is being spent on school maintenance over five years. This is the largest investment in public education infrastructure in the history of NSW.

permanent, innovative and flexible learning spaces

student facilities, including canteen and OSHC

hall

administration and staff facilities

library

landscaped outdoor areas

# Existing site plan

## NARRABEEN SPORTS HIGH SCHOOL

8. Pittwater Sports Centre
9. Lake Park
10. Caltex Woolworths Service Station
11. Shell Service Station

Examples of innovative learning spaces

## Indicative project timeline

## Progress summary

Early planning is underway to develop Narrabeen Education Precinct. The project scope being investigated includes new and upgraded facilities, innovative learning spaces, and provision for future student enrolments in the area.

The project is currently in the master planning phase. The characteristics of the site and the broader Narrabeen area are being respectfully considered in the design process.

## How can I get involved?

Your feedback is important to us. We are committed to working together with our school communities and other stakeholders to deliver the best possible learning facilities for students.

It is not always possible to implement everyone's suggestions but we will work with school communities to ensure we have considered what is important to you.

We will keep the local school community and residents informed as the project progresses.

## Next steps

It is too early to confirm the project scope or project timelines.

At present, concept plans are scheduled to be completed in early 2020.

Pending the completion of the early planning process in accordance with the present schedule, we expect to lodge a State Significant Development Application in mid to late 2020.

The staging plan for, and details of, construction will be known only after the business case has been approved, the design has been finalised, and planning approvals have been secured.
