

Narrabeen Education Campus

Works notification

April 2022

A project is underway to upgrade the Narrabeen Education Campus which includes Narrabeen North Public School and Narrabeen Sports High School. The project will provide additional permanent teaching spaces and core facility upgrades. Specialist sporting facilities for community access are proposed to be delivered under a joint-use arrangement with local council.

From Wednesday 13 to Friday 22 April 2022, during the Autumn school holiday period, contractors will be on-site at the Narrabeen Education Campus to carry out geotechnical investigations which will inform the planning and design of the campus.

Geotechnical Investigations

Service scans and site set-up will start on Wednesday 13 April 2022 followed by a geotechnical investigation at the campus on Monday 18 April 2022.

Several boreholes will be made at Narrabeen North Public School and Narrabeen Sports High School sites using a vehicle-mounted drill rig. The equipment used will be roughly as loud as a commercial lawnmower. The test areas will be reinstated to their current condition following the works.

This work will be completed in three days weather permitting. Work areas will be cordoned off during drilling to ensure public safety.

Site investigations

Over the coming months, our project team and contractors such as architects and engineers will conduct a number of site visits to the Narrabeen Education Campus to undertake a range of site investigations as part of their planning and design work.

Work hours

Work will take place between 7am and 5pm Monday to Friday. There will be no work on weekends or public holidays.

Thank you for your patience while we deliver this important school infrastructure.
