

Narrabeen North Public School upgrade

Works notification | 20 October 2023

We are upgrading Narrabeen North Public School with improved education facilities to support the student community.

Tower crane installation Tuesday 7 November 2023

Establishment of a tower crane is required for construction works at Narrabeen North Public School. This will assist with main works construction and the safe and efficient movement of heavy materials.

The deconstructed crane will be delivered by trucks on Tuesday 7 November between the hours of 8 am and 5 pm. All tower crane sections and equipment will be laid out, joined and lifted by a mobile crane. Installation should be completed that same day, weather permitting. If weather is not agreeable on this day, installation may take place over the following days.

Once installed, the location of the tower crane will be entirely within the school construction site boundary. Please refer to the map overleaf for vehicle movements and the location of the crane.

When not in use the crane will be seen to “weathervane”, which means the jib arm of the crane will move freely in the direction of the wind. This is normal operations. Appropriate controls and monitoring measures will be in place for the duration of the time the crane is on site.

Traffic management

Construction vehicle movements throughout the day will be via the temporary access road on Warriewood Square Sports ground. The mobile crane and auxiliary trailers will park temporarily within the Northern Beaches Indoor Sports Centre (NBISC) car park. This zone will be isolated from the public with plastic water barriers and signage.

Heavy vehicle movements will be managed with an approved Traffic Management Plan to ensure the least possible disruption to the traffic on nearby and surrounding roads. Traffic controllers will be used where required to manage entry and exit of vehicles to and from the construction site as necessary. Please follow the direction of temporary signage and traffic controllers when in place.

Contact us

If you have any questions about this project you can contact School Infrastructure NSW on email at schoolinfrastructure@det.nsw.edu.au or during business hours on 1300 482 651.

Thank you for your patience during this important work.
