

Narrabeen Sports High School

Works notification | 15 October 2024

As part of the NSW Government's plan to rebuild essential services, a project is underway to upgrade classrooms and other facilities at Narrabeen Sports High School.

Remediation works – Saturday 26 October 2024

During investigations as part of the upgrade of the Technological and Applied Studies (TAS) rooms, suspected bonded asbestos containing material was found in the window frames of the building.

NSW Health explains that if bonded asbestos is mixed with cement or other hard bonding materials, and in good condition, it is likely to be low risk.

Work to remediate the asbestos in the window frames is scheduled to take place outside of school hours on Saturday 26 October 2024 between 7 am and 5 pm.

The work will take place in the following rooms: AR0014 Metal Tech LS, AR0015, Metal Tech LS, AR0016, Welding Bay, AR0017 Welding Bay, AR0018 Woodtech Room, AR1045 Computer Lab and AR1047 Textile Room.

All work will be done indoors, and under the supervision of an independent hygienist with additional safety measures and air monitoring in place before the work starts.

All work will be done in accordance with work, health and safety laws and the site-specific Asbestos Management Plan.

All work will be completed by licensed and accredited asbestos contractors and monitored by independent hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The rooms will be inspected by the independent hygienist to confirm they have been fully remediated, and School Infrastructure NSW will receive a clearance certificate before the rooms are reopened.

For more information about asbestos, visit the NSW Health website:
