Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including $8.9 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world-class public education.

Project overview

We are delivering an upgrade to Narrabeen Sports High School. The next step in in this project involves further refurbishment of Block K and the classrooms in Block C.

The project also includes completed upgrades to the technological and applied studies (TAS) classrooms and student and staff amenities in Block A, part of Block K, renewal of the science labs, prep rooms, and chemical storerooms in Block B, classrooms and amenities in Block E, amenities and change rooms in Block A and D and the replacement of roofs in Blocks B, C, D, and E, and part of Block A.

Progress summary

New grass has been laid on the sports oval, which was being used by Narrabeen North Public School during construction, and the area has been fenced the area off to allow the grass grow. The fence will be removed during Term 1 2025 and the area will be returned to the school for use.

We have completed the upgrade on Block A2, which included refurbishing the technology and applied studies (TAS) rooms, including a modern hybrid space for design and technology subjects, woodwork, textiles, and computer rooms.

Design work for the remainder of Block K is almost complete. This will result in the remaining classrooms being converted into 2 music rooms with acoustic panelling, and a performance space which will include a sprung wooden floor to support creative and performing arts subjects.

Next steps

We expect to release the tender for the upgrade of the remainder of Block K soon.

Work on the designs for the upgrade of 20 classrooms in Block C is complete, allowing the tender for the construction contract to be released this month. We expect to begin work on the upgrade in Block C in the coming months.

We will keep you up to date as the project progresses.

Upgraded wood technology room in Block A2

Construction work hours

Construction work hours are Monday to Friday 7 am to 6 pm and Saturday 8 am to 1 pm.
There will be no work on Sunday or on public holidays unless otherwise advised.
