Narrabeen Sports High School
Works notification | 20 November 2025

As part of the NSW Government's plan to rebuild public education, a project is underway to upgrade Narrabeen Sports High School.

Remediation works

During refurbishment works in Block K, asbestos containing material was found in the vinyl floor tiles in one of the general learning spaces.

The material has been confirmed as bonded asbestos which means it is attached to another material such as cement or vinyl and cannot be crumbled by light pressure.

The area is located within a construction site which is separated by hoarding and inaccessible to staff and students. Works have ceased and additional safety measures such as air monitoring will be put in place.

We are following all the advice and protocols of independent asbestos hygienists and other experts.

Works to remediate the area will take place outside of school hours on **Saturday 22 November 2025**. All remediation works will be completed on this day.

Remediation work will be done in accordance with all work, health and safety laws, and the Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines. The contractor will receive a clearance certificate prior to demolition works recommencing.

For more information about asbestos, visit the NSW Health website: health.nsw.gov.au/environment/factsheets

The health, safety, and wellbeing of the school and local community is our highest priority. We will keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your cooperation during this important work.
