Investing in our schools

As part of the NSW Government's plan to rebuild public education, the NSW Budget is delivering record education funding, including $9.2 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

We are delivering an upgrade to Narrabeen Sports High School and have completed refurbishments and upgrade works across the school site. We are now planning to start construction of the new performance hall.

The performance hall will have seating for approximately 380 guests and will provide students with a dedicated space to explore their creative talents, enhancing their education through performances, exhibitions, and workshops. The hall is due for completion in mid-2027.

Progress summary

6 demountable buildings have now been removed from the school grounds to make room for the new performance hall. Temporary fencing will remain installed around the site in preparation for the upcoming construction work.

The planning application, known as a Review of Environmental Factors (REF), for the new performance hall, has been determined and planning for the start of construction has begun.

Detailed plans for the approved hall are set out in the REF, which can be viewed at edu.nsw.link/NSHS-REF.

The new performance hall will include a boys change room including 3 toilets, a girls change room including 4 toilets and one accessible student bathroom.

The hall also includes amenities for staff and members of the public including a separate female bathroom with 3 toilets, a male bathroom with 2 toilets and one accessible bathroom.

The tender for main construction work of the performance hall has now closed. Tender evaluation is in the final stages.

Next steps

The construction contract for the hall is expected to be awarded in early July.

Following the award of the construction contract, we will work with the contractor to develop the timeline for construction.

We will provide further information as the project progresses.
