Narrabeen Sports High School
Works notification | 2 April 2026

As part of the NSW Government's plan to rebuild public education, a project is underway to upgrade Narrabeen Sports High School.

Removal of temporary facilities

Works to prepare for the removal of temporary demountable facilities has now started and temporary fencing has been installed around the work areas to prevent access.

Demountable removal is scheduled to take place on Thursday 9 and Friday 10 April 2026, weather and site conditions permitting.

The removal of the demountables is being undertaken in school holidays to minimise the impact on school operations.

What to expect

- Construction vehicles will enter and exit the site to remove the demountables via Namona Street.
- Mobile cranes will be used to safely load the demountables onto trucks.
- Traffic control will be in place as needed to ensure the safety of the community.

The material in these demountable classrooms is assumed to contain bonded asbestos, as listed on the school's asbestos register. Bonded asbestos means it is attached to other materials such as tiles or cement and cannot be crumbled by light pressure.

As a requirement for transportation, stickers will be placed on the buildings to notify that they contain asbestos.

For more information about asbestos, visit the NSW Health website: health.nsw.gov.au/environment/factsheets

All work will be done in accordance with work, health and safety laws and the NSW Department of Education's guidelines for the release and transport of demountable buildings containing asbestos from school sites, which have been approved by SafeWork NSW. All work will be completed in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The health, safety, and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact us on the details below. Thank you for your cooperation during this important work.
