Narrabeen Sports High School

Project update | September 2026

Investing in our schools

As part of the NSW Government's plan to rebuild public education, the NSW Budget is delivering record education funding, including $9.2 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

We are delivering an upgrade to Narrabeen Sports High School and have completed refurbishments and upgrade works across the school site.

We are now preparing to start construction of the new performance hall.

The performance hall will have seating for approximately 380 guests and will provide students with a dedicated space to explore their creative talents, enhancing their education through performances, exhibitions, and workshops. The hall is due for completion in mid 2027.

Progress summary

We are pleased to confirm that the construction contract for the new performance hall has been awarded to TCQ Construction.

Next steps

Site establishment works are expected to begin in late September 2026. We are currently in the final stages of planning the construction vehicle site access entrance. We will share further information on the site establishment works and construction timeline when details are finalised.
