Narrabeen Sports High School
Works notification | 22 September 2026

As part of the NSW Government's plan to rebuild public education, a project is underway to upgrade Narrabeen Sports High School to deliver a new professionally-equipped performance hall.

Site establishment works to prepare for the construction of the hall started on Monday 14 September 2026. Site fencing has been installed around the construction area and the site compound has been established.

School holiday works – removal of asbestos containing materials

Some areas of soil within the construction zone are assumed to contain bonded asbestos as listed on the school's asbestos register. This means it is attached to another material such as cement or vinyl and cannot be crumbled by light pressure.

Work to remediate the asbestos-containing material will take place outside of school hours in the Term 3 school holidays.

All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

Following the remediation, the independent hygienist will inspect the area and provide a clearance certificate for it to be reopened.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done.

For more information about asbestos please visit the NSW Health website or scan the QR code.

If you have any questions about this project, please contact School Infrastructure during business hours on the contact details below.

The health, safety, and wellbeing of the school and local community is our highest priority. Thank you for your cooperation during this important work.
