Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$8.9 billion for new and upgraded schools. This targeted investment will ensure growing communities get access to a world class public education.

Project overview

The NSW Government is upgrading Neutral Bay Public School to deliver 7 new modern flexible classrooms and refurbish 12 existing classrooms. The project will also deliver a new library, canteen, student amenities, staff facilities and storage rooms. Improvements to the school's outside of school hours care (OOSHC) facilities and play spaces will also be provided.

Progress update

Work on the Neutral Bay Public School upgrade is progressing:

- Works on new Building M are continuing, with roof installation now complete and works on the interior continuing to schedule.
- The refurbishment of Building A is nearing completion, providing 9 refurbished classrooms by the beginning of Term 3.

Next steps

- Removing demountable classrooms along Yeo Street over the July 2024 school holidays.
- Starting the main entry works for Building M on Bydown Street which will include a new canteen and administration facilities.
- Fire hydrant upgrades and landscaping next to Yeo Street - these works will be separated from the rest of the school by site fencing.
- Starting works on the new playing field south of Building M.

Building A

We're excited to welcome students back to Building A in Term 3 2024. This is a heritage building that includes 9 refurbished modern classrooms.

School entry changes

Starting in Term 3 2024, the school entry points on Yeo Street and Bydown Street (at Building B) will be closed to enable construction and landscape works. Students and parents can safely enter the school using 2 entry points on Ben Boyd Road, and one entry point on Bydown Street (at Kindyland), shown on the map below.

How can I get involved?
