

Indicative design of the new Bungendore High School

# Bungendore High School

Project update | January 2023

## Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

## Progress summary

The State Significant Development (SSD) application has been approved and the detailed design is complete. Details regarding the determination will be available on the NSW Government Planning Portal at: <https://www.planningportal.nsw.gov.au/major-projects/projects/new-high-school-bungendore>. You will also be able to find the project's conditions of consent at this webpage. The contractor will soon mobilise to start main works on the new high school. We will notify the community ahead of works starting.

We thank the community for their patience and feedback throughout the planning process of both the permanent high school site and the temporary high school site located in the Bungendore Public School grounds.

## Status of additional car parking at Bungendore Station

Although it is not a requirement of the project, we are working with key stakeholders, including Transport for NSW to establish a temporary carpark at the Bungendore Station forecourt. This temporary car park will be available to the community to offset on-street parking during the construction phase. Planning has commenced to determine the approval pathway and we will provide further information as these arrangements progress.

### Information about transport and access to the temporary site for Bungendore High School and Bungendore Public School

- The kiss and drop zone on Gibraltar Street has been extended. A traffic controller will be on-site from 31 January – 3 February 2023 to assist parents/carers in the correct use of the traffic management measures.
- The 15-minute parking zone on Majara Street has been extended. A traffic controller will be on site from 31 January – 3 February 2023 to guide drivers as necessary.
- The bus zone on Majara Street will be used by both schools.

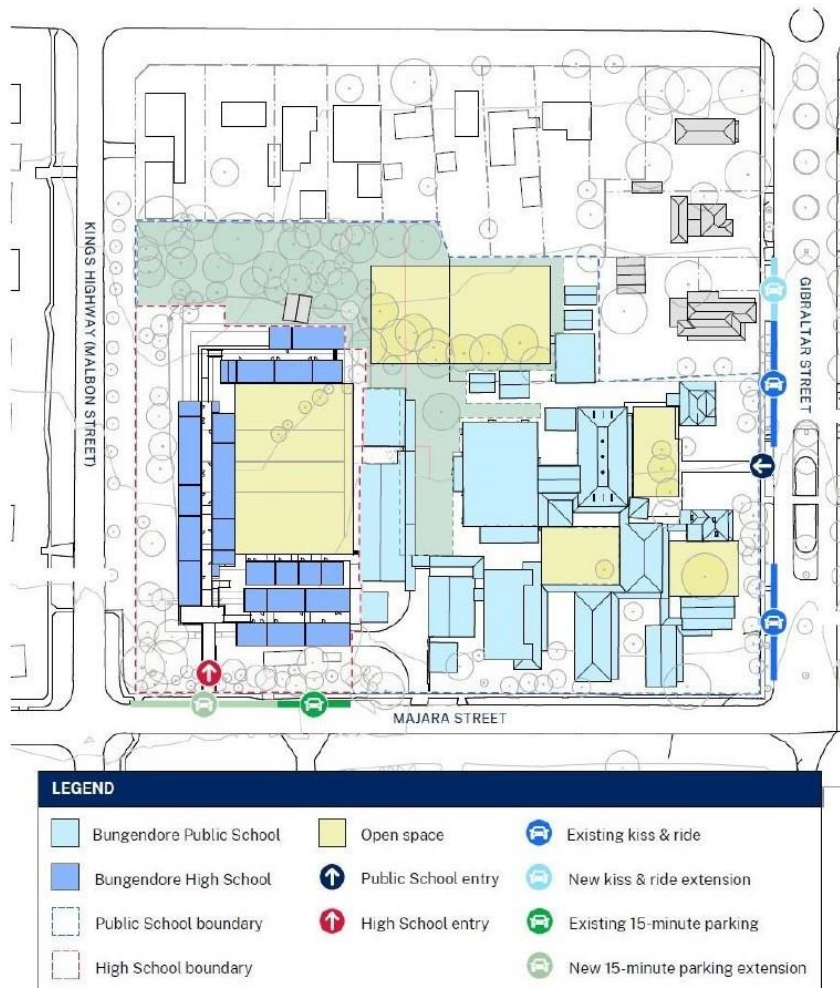

Figure 1: map showing changes to traffic conditions in Gibraltar Street and Majara Street (indicative only).
