Jerrabomberra High School

Project update

June 2022

Investing in our schools

The NSW Government is investing \$8.6 billion in school infrastructure over the next four years, continuing its program to deliver 160 new and upgraded schools to support communities across NSW. This builds on the more than \$9.1 billion invested in projects delivered since 2017, a program of \$17.7 billion in public education infrastructure.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

State Significant Development Application Update

The Response to Submissions (RtS) for the State Significant Development (SSD) application was lodged in April 2022 with the Department of Planning and Environment. The RtS addresses the feedback received during the exhibition of the SSD application.

A determination is expected on the application in the near future, after which construction of the new high school can start. We will continue to provide updates to the community about the progress of the SSD application.

The school will be operational for the start of 2023 in purpose built temporary facilities. The preferred location is at Jerrabomberra Public School and further information about these arrangements will be provided to the community as details are available.

Revised intake area for new high school in Jerrabomberra

In March 2022, the Department of Education proposed changes to the intake areas for schools in the Queanbeyan Network. These changes were necessary to incorporate the three new schools in the area that are due to operate from 2023.

| NSW Department of Education – School Infrastructure

The following amendments will be made to the changes published on 24 March 2022:

Jerrabomberra Public School:

- Jerrabomberra Heights will remain in the intake area as per the zoning reversal announcement on 14 April 2022
- South Jerrabomberra will be included in the intake area

Jerrabomberra High School:

- Intake areas will align with Jerrabomberra Public School. South Jerrabomberra and Jerrabomberra Heights will be included in the intake area.

The new school intake areas can be viewed using the NSW Public School Finder from Thursday, 16 June 2022 at schoolfinder.education.nsw.gov.au. You can also access School Finder via the enrolment section of each school's website.

For more information on recent and planned school upgrades across the Queanbeyan Network visit www.schoolinfrastructure.nsw.gov.au/explore.html.

We thank the community for providing feedback and your patience while the final intake areas were determined.
