

## New high school in Jerrabomberra

Project update | May 2022

### Investing in our schools

The NSW Government is investing \$7.9 billion over the next four years, continuing its program to deliver 215 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

### Message from the Principal

It is an honour to be the foundation principal of the new high school in Jerrabomberra. I look forward to welcoming everyone to our new school and forging strong partnerships with all members of the school community.

I am excited by the proposed design of the school and the flexible learning environments that are being developed to facilitate innovative, high quality teaching and learning practices and provide the best possible educational opportunities for all students.

Our vision is to co-create learning with students, families and the community, through an inclusive, supportive and high expectations culture. We will be aiming to create autonomous learners, prepared for an ever changing and evolving world and work force.

I welcome you to make contact and find out more about our school and the exciting opportunities, which will be available for your children. You can email your inquiries to the school at: [jerra-h.school@det.nsw.edu.au](mailto:jerra-h.school@det.nsw.edu.au)

Scott O'Hara – Principal

### **Progress summary**

The Response to Submissions (RtS) for the State Significant Development (SSD) application has now been lodged with the Department of Planning and Environment. The RtS addresses the feedback received during the exhibition of the State Significant Development (SSD) application.

You can view the RtS Report, submissions and the SSD application on the NSW Government's Planning Portal at: <https://pp.planningportal.nsw.gov.au/major-projects/projects/new-high-school-jerrabomberra>

Construction of the new high school can start when the SSD application is determined. We will continue to provide updates to the community about the progress of the SSD application.
