

# New high school, primary school and public preschool for Wilton

Project update | July 2025

Artist impression of the new high school entry (subject to change).

## Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2025-26 Budget is delivering \$3.9 billion for new and upgraded schools in Western Sydney. This targeted investment will ensure growing communities get access to a world class public education.

This commitment includes a new high school, primary school and public preschool for Wilton located adjacent to each other on Fairway Drive, Wilton.

## New high school for Wilton

The new high school will be delivered across two stages with Stage 1 of the high school opening on Day 1 Term 1 2027, together with the new primary school and public preschool.

The school will not only provide essential education infrastructure but also accommodate the anticipated increase in high school enrolments in the area and allow families to conveniently access educational facilities close to home.

## Progress summary

Thank you to all who attended a Community Information Session on Monday June 30 for interested community members to find out more about the future high school and ask questions of the project team. The resources, frequently asked questions and plans shared at the information session are available on the project webpage, details below. Any questions that couldn't be answered on the day will be answered in future communications.

## Next steps

The planning application, known as a Review of Environmental Factors (REF) for the new high school for Wilton will go on exhibition in the coming weeks on the NSW Planning Portal for Division 5.1 (Part 5) for the community to review and provide feedback. Details of the exhibition dates and the link to the planning portal will be shared when available.

## New primary school and public preschool for Wilton

The new primary school and preschool is scheduled to open by Day 1 Term 1 2027. The project includes modern new facilities for the growing community.

### Progress summary

Exhibition of the planning application, known as a Review of Environmental Factors (REF), for the new primary school and public preschool for Wilton is now closed. REF submissions are being reviewed and considered as part of the REF process. The REF will be assessed by the department's Planning Assessment team who will determine the outcome of the proposal.

Designs for the new school are progressing, this includes defining the building materials, room and space details, furniture, fixtures and equipment (FF&E) and building services.

The contract tender process to appoint a builder for the new primary school, preschool and Stage 1 of the high school is also being undertaken.

### Next steps

We expect to share the appointment of a builder as well as planning approval for the REF in Term 3, 2025. Construction is expected to start in late 2025.
