

An example of an innovative learning space

New public school in Murrumbateman

Project update

June 2021

Investing in our schools

The NSW Government is investing \$7 billion over the next four years, continuing its program to deliver more than 200 new and upgraded schools to support communities across NSW. This is the largest investment in public education infrastructure in the history of NSW.

The NSW Department of Education is committed to delivering new and upgraded schools for communities across NSW. The delivery of these important projects is essential to the future learning needs of our students and supports growth in the local economy.

Progress summary

The master planning, concept and schematic design phases are now complete. Throughout the development of the design, the project team has sought input from the local community across a broad range of themes and issues. This feedback has been incorporated, where appropriate, in the design.

An Aboriginal Cultural Heritage Assessment has been completed, including consultation with local community members and registered Aboriginal parties, such as the local Aboriginal Land Council.

A State Significant Development Application has now been lodged, and is currently on exhibition.

Virtual Information Session

A virtual information session will be live from 9am Monday 28 June to 5pm Friday 2 July 2021. Here, you will find information about the project, including the design and site layout.

You can access the virtual information session from the project webpage: www.schoolinfrastructure.nsw.gov.au/projects/n/New-primary-school-in-Murrumbateman.html

Have your say

What is a State Significant Development Application?

State Significant Development (SSD) applications are used for projects that have special significance to the people and State of NSW. The Department of Planning, Industry and Environment (DPIE) is responsible for the planning approval process for SSD applications, rather than local council.

How can I find out more about the SSDA?

You can find detailed information about the SSD application by going to the DPIE's website: www.planningportal.nsw.gov.au/major-projects

How can I provide feedback on the SSDA?

If you would like to provide feedback, make a formal submission during the exhibition period by following the 'Make a Submission' link at www.planningportal.nsw.gov.au/major-projects

All feedback on the SSD application should be directed to DPIE via this link.
