

Newcastle East Public School

Works notification

May 2019

Work is underway to upgrade Newcastle East Public School in response to forecast population growth in the area.

Works include the construction of four new flexible learning spaces, a new covered outdoor learning area, refurbishment of the staff administration area, and replacement of the roof of the existing heritage building.

Between June and August 2019 Artel Constructions will:

- Continue work on the main building structure including the pouring of the concrete footings, columns and the ground and first floor concrete slabs
- Start forming and pouring the tiered seating and the stairs
- Start installing the external cladding and new roof.

Temporary partial closures of Brown Street

Over the coming months, a number of short-term partial road closures are required on Brown Street between Kitchener Parade and Tyrell Street. These closures are required to facilitate oversized vehicle movements for deliveries including structural steel and roof sheeting. Traffic control will be in place for the safety of students, the local community and workers. Road users are advised to obey directions.

Working hours

Work will take place from 7am to 5pm, Monday to Friday and 8am to 1pm Saturday. No work will take place on Sundays or public holidays. We are here to make sure that work is completed safely and efficiently and we will minimise impacts on the community at every opportunity.

Information booth details

To speak with a member of the project team about the project please attend the information booth on Monday 17 June 2019 at Newcastle East Public School, 8.15am-9.15am.

Thank you for your patience while we deliver this important school infrastructure.
