

# Nirimba Fields Public School and new public preschool

## Works notification | 1 March 2025

As part of the NSW Government's plan to rebuild essential services, a project is underway to deliver new permanent school facilities in Nirimba Fields at a greenfield site on Triton Parade Nirimba Fields, to meet current population needs and future enrolment growth.

### Site establishment works

Site establishment and ground works for the new permanent facilities at Nirimba Fields Public School will start on Tuesday 4 March 2025 from 7 am.

There will be increased traffic around the school as the builder prepares for the construction works.

Site establishment works include:

- installing temporary fencing around the site perimeter
- setting up site office sheds and amenities within the builder's compound
- establishing temporary power and water supply to the site
- earthworks activities, including site investigations, digging trenches and excavation works.

The builder and contractors will access the construction site via Triton Parade, which will serve as the single entry point to restrict public access. Any noisy works will be communicated in advance to the school and residents to minimise disruption.

A map of the construction site is provided on the next page.

### Working hours

All works will take place from Monday to Friday from 7 am to 6 pm and on Saturdays from 8 am to 1 pm. No work will take place on Sundays or public holidays unless otherwise advised.

### How we manage construction impacts

School Infrastructure will work with the contractor to manage and reduce any potential construction impacts including noise, vibration, dust, and traffic changes.
